#### FREAK ACCIDENTS ....

#### CANNING SEASON . . .

CANNING SEASON ... is at hand. Almost everyone we hear about is canning beans, or mak-ing pickles of various and sundry kinds, and now with the peach season about to start, they will be giving their attention to putting up some fruit for the use of the family during the winter months ahead. That means there will be extra grathage for the next couple of months, but the bousewives of Farmington will not have to worry too much about that detail for during the months of August and Seytember, there will be two collections of garbage each week — one on Wednesday and an-other on Saturday. Get your garbage for the sout where they may be emp-tide each Wednesday and Saturday morning. for the truck will be around.

#### HE MONTH OF JUNE .

THE MONTH OF JUNE ... is also given credit for being the month of brides — and we won't dis-pute that fact at all, but August seems to be having plenty of brides in our community. Those horns you heard last Saturday night might have been after the Coolman. Roberts wedding or they might have been after Occar Auten's wedding — they both happened to be on the same eve-ning. There are several other weddings scheduled for this month, so don't be alarmed if you hear a commotion up and down the "Main ">==== . . . .

#### THIS FRIDAY ...

THIS FRIDAY .... we come to another observance of Friday, the 13th — and here's hoping it is one of the luckiest days you have ever had!. Not many folks pay much attention to supersitutions any more, but almost everyone uncon-sciously slows up a little, and takes the time to do a little coglitating before they take a very big, important step. Not that they are supersi-tious — certainly not — but it never does any harm to take a few extra versentifier. precautions.

#### A RATHER STRANGE ...

A RATHER STRANGE ... . coincidence beful Dr. H. E. Viergutz when he was in New York City recently, attending the convention of the International Association of Lious Clubs. As he was hurrying along Fitth Avenue, wearing his Nitco overseas cap which let everyone know that he was from "Parmington, Michigan" as this information was carried on the side of the cap, he was stopped by a rather elderly gentleman. He introduced himself as A. E. MacKinnon, and went on to asy that the reason he had stopped Dr. Viergutz was because he himself had once been a resident of Farm-ington. Michigan — had published 'The Enterprise there, as a matter of fact. Mr. MacKinnov was published of the Enterprise from 1895 for fact. Mr. MacKinnov was published of the Enterprise from 1895 for the community. he still held ford memorize of Farmington and the exthe community, he still held fond memories of Farmington and the periences he had here in the early days of his journalism career.

"STRIKE".... will have more meaning for Farmington sport enthusiasis than just the call of the umpire at a baseball game after this week Saturday, August 14 — for that is the date that Farmington Recreation will reopen after a period of several weeks. The bowling alleys closed at the end of the summer leagues, but they will be open again beginning Saturday — and there will be many folks who welcome this bit of news, for it's never too bot for some of them to relish a little bowling.

#### RECTION, PLEASE ...

CORRECTION, PLEASE ... in the copy of Michigan Mirror. appearing on Page 2 of this week's Enterprise. The St. ignace festival dates should be Augmat 13-15 in-stead of August 6-3. If you think you'd Whe to attend the festival, and thought it would be too late, you can still throw a few duds into a suit-case and take off for the Straits, and get there in plenty of time.
