How to Celebrate Your Wedding Anniversary

The "Dutch" Millers celebrated their Tin Wedding Anniversary Saturday. Everything had to be tin. Folks even ate off tin plates, and drank coffee out of tin cups.

When it was time to drink a toast to the "bride and groom," out came the final touch: ice cold beer in cans. And come the Millers' 15th anniversary (Glass) I expect we'll be toasting them with sparkling beer in bottles!

And I couldn't help thinking that there was a lesson for married folks in the way Dutch and his

missus have got along together—in their policy of live-and-let-live, with never a criticism of each other's differences in taste.

From where I sit, it's due to two things: Temperance—as that moderate preference for beer suggests, and Tolerance—for their own differences of opinion—and for the tastes of others, whether applied to beer, to politics, or how to celebrate an anniversary.

Neither do we, which is why we're so enthusiastic over this latest Bigelow Weavers' broadloom. And Ceredo is as beautiful, as rich in appearance as it is long wearing. It comes in 16 truly handsome colors . . . shades that set your mind to figuring out new combinations for entire rooms. Rooms of any size or shape—regardless of bay windows and other irregularities—can be covered with Ceredo as smoothly and snugly as if you'd "poured it on." In case you burn or damage a spot, it can be replaced, without anyone the wiser. And these are but a few of the many remarkable features of Ceredo.
