Camp Out Plans Near Completion

A gigantic father and son Halo-weon camp out will be held at Burton Woods, Five Mile Road near Farmington Road, on Saturday and Sunday, October 30 and 31.

Both days of this overnight camp will be packed full of entertaining events for every father and son in Livonia Township. There will be contests, games and demonstrations of every description to make for healthy appetites, and to satisfy those appetites, each father and son will get his fill of his own delicious cooking.

The camp fire planned for Saturday evening will bring father, son and old mother nature closer to each other as they sit around the crackling fire singing, telling stories, watching humorous skits, and drinking the cider that is to be furnished.

Sunday morning church facilities have been arranged. If anyone wishes he may attend his own church, but for those who wish to stay in camp, Mass will be held at nearby St. Michael's for Catholics, and Protestant services will be in camp by the Rev. R. E. Prince of Elm Baptist Church.

If anyone finds it impossible to attend the entire period, they may attend any part that corresponds with their free time. It is hoped that all fathers and sons will participate in as much of this well-balanced program as they possibly can.

A list of provisions each father and son will need will be provided each week in order to help prepare for this overnight affair.

Charmers included Mr. C. Adams, contests and games; Senior Scouts, who are soliciting demonstrations; Mr. C. D. Monciff, camp fire engineer; Mr. A. Ruttia, first aid; Mr. H. McGregor, protection and safety; and Mr. N. L. Hall, registration and publicity.

J. SCOTT GREER LEADS SERVICES IN INDIANA

J. Scott Greer, minister at West Point Church of Christ, returned last Sunday from Indiana where he has been engaged in evangelistic work during the month of September.

At the morning services Elder Greer gave a stirring message on "Loving Others to Christ" based on the first chapter of John. This message was given, said he, in view of the intended revival services planned by the Church to begin Sunday, October 17, at 11:00 a.m. Announcement was also made that the Church had been fortunate to secure the services of Evangelist R. H. Boll of Louisville, Kentucky, as speaker who was here about this date last year. Aside from regular ministerial duties at Portland Avenue Church at Louisville, Elder Boll is scheduled to visit the States and Canada as author, teacher and evangelist of outstanding abilities. Mention was made in the Church Bulletin that these meetings would be conducted each evening at 7:30 p.m. and probably end October 28.

James Simpson, Serving Aboard U. S. Destroyer

James D. Simpson, fireman apprentice, USN, son of Mr. and Mrs. J. D. Simpson of 34845 W. Nine Mile Road, Farmington, is serving aboard the destroyer USS Charles S. Sperry, which is scheduled to leave the crates soon to Cristobal, C. Z., and several other Caribbean ports.

The Sperry recently returned from Reserve cruises to Ciudad Trujillo, the capital city of Dominican Republic.

Simpson attended Farmington High School before entering the Naval Service on November 3, 1947, and received his recruit training at the Naval Training Center, Great Lakes, Illinois.

CIO OIL STRIKERS BATTLE POLICE

RICHMOND, CALIF. — SOUNDPHOTO — Five pickets were arrested and many others injured in a battle between police and rioting CIO oil strikers. Clubs and night sticks were used freely by both sides during the brief but sharp fighting.

WASHINGTON DOWNTOWN

(Continued from Page Two)

possibilities in everything I saw." The young stratavision creator said afterward. "Radio already had proven its adaptability and value for airplane communications and navigational aids, including blind flying. Turning these facts over mentally, I concluded that Westinghouse already had at hand basic engineering information which seemed to justify the ambitious plan."

He sold the idea to Westinghouse and Glenn Martin and they went ahead and backed his extensive, not to say expensive, experimentation. I caught some of the enthusiasm which I know "Chill" must radiate from the young man who sat across the table from me explaining the drawings.

"Think of what stratavision would mean to the readers of your column," he said.

"We only asked for a license for one station but with more we could look up the Pacific and Atlantic coasts so that we could pick up Hollywood and New York studios (I don't know why he left out Chicago) with only eight planes flying 500 miles apart! By adding six planes to the system to cover the Northwest and Southeast we could serve 78 per cent of the population!"

And once we got the rural televisioners looking, I thought, what a lot of new material would be put into the telecast to say nothing of the greatly broadened market for television ads and advertising which would be created.

The first stratavision experiments established the surprising fact that there were lots of television sets in areas which could not possibly be reached ordinarily (by coaxial cable or microwave). At the first call for response to the test programs many letters came from such areas. Probably amateurs who had built their own sets, and perhaps erected their own antennae on some high elevation.

Motorist Draws Heavy Fine

Another motorist discovered last week that it may prove costly to drive while one is under the influence of liquor. Farmington police picked up Gale G. Davis of Erie County, Pennsylvania, early Sunday morning. He was charged with driving under the influence of liquor, and taken to the Oakland County Jail in Pontiac.

Davis, who was driving a borrowed car, appeared before Judge Lockwood Monday morning, and paid a fine of \$100.00 and \$10.00 costs. His driver's license was revoked for one year.
