#### "Pitchman"

A pitchman—or woman—is a sidewalk sales person. He sells anything light, cheap and portable. It might be an inferior silverware polish or fountain pen. The tools of the trade are a trip or tripod, which forms part of a collapsible table, and a suitcase to carry the merchandise. In a few big cities good for long stays the pitch workers take out "readers" or city licenses. But most of them would rather take a chance on the small fine usually imposed upon them when they are run in. As a rule they are just chased.
