NO NOISE IS GOOD NEWS

AFTER 20,000 miles or more of hard driving, even the best clutch needs a going over to keep it smooth. Worn facings or facings that are loose on the face plate can make a clutch chatter like a school bell.

If miles and miles of service have made your Buick's clutch too "talkative," we'll bring it back to new-car dependability and quietness with Buick methods and Buick factory-engineered parts.

Whatever work we do on your car, you can count on us for real Buick service and factory-engineered Buick parts. That's the combination that keeps your Buick always a Buick.
