

**Fish Instead of Meat**  
Fish makes a good meat substitute in these days of high meat prices. Many types of fish are cheaper than many cuts of meat, yet the nutritive value of fish is high.

**Famous Home for Boys**  
Boystown, located near Omaha, Neb., now occupies over 1,000 acres and takes care of hundreds of boys every year. It was founded by Father Flanagan, who died in April, 1948.

## GREYHOUND LINES EXPANDS SERVICE WITH NEW ROUTES

The Great Lakes Greyhound Lines has announced that, effective January 1, the company would acquire the operations of the Central Greyhound Lines between Detroit and Chicago and in Western Michigan.

The following route additions, it was announced, would be added to the Great Lakes operation. Two routes between Detroit and Chicago by way of Coldwater and Sturgis, and by way of Three Rivers and Niles; from Chicago to Petoskey over U. S. 31; from Kalamazoo to Chicago; from Kalamazoo to Benton Harbor; Grand Rapids to Grand Haven; Grand Rapids to Muskegon, and Benton Harbor to South Bend.

The merger will add 1,161 miles to the Great Lakes system which operates in Michigan, Ohio, Indiana, and Kentucky — an addition of approximately 7,000 miles annually.

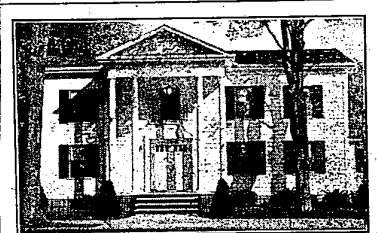

## Map Helps Cut Down Needless Walking

A good resolution for 1949 is to eliminate many of the needless steps and backstraining jobs around the barn.

Michigan State College farm management specialists say that it isn't hard to do. The start is in making a simple rough sketch of the working area. Mark in feed bins and such places. Then draw lines to show the route traveled in doing the chores.

It's surprising how many steps can be eliminated by moving some of the equipment in the barn. Some farmers have been able to save as much as several miles of unnecessary walking each year.

Grinding feed and feeding it to beef or dairy cattle are good chores to analyze.
