

Noble P.T.A. Meeting Is Set For March 7

The Noble P.T.A. meeting will be held at the Noble School on Monday, March 7, at 8 p.m.

Mr. Munson, from the Oakland County Tuberculosis Association, will be the speaker on the program for the evening. It is also expected that Mrs. Imonen, the new school nurse, will be present.

Refreshments will be served by the sixth grade mothers. Don't forget our second concert on Sunday, March 20, to be given at 3 p.m. in the Farmington High School gym. Grade school children must be accompanied by their parents. Since it is expected that this will be an outstanding entertainment program, a good attendance is expected.

Mrs. Mettie Bachelor of Walled Lake called on Mr. and Mrs. Arthur Lamb on Monday.

DOUGLAS BELL MARRIED TO NORTHVILLE GIRL

Miss Virgie Stanley, daughter of Mr. and Mrs. Floyd Stanley of Northville, became the bride of Douglas Bell of Farmington, son of Mr. and Mrs. Clarence Bell of Grand River Avenue, at 7 p.m. on Friday, February 18. The wedding was solemnized at the home of the bride's parents in Northville. Rev. Carl Schultz officiated.

The bride wore a dusty rose suit, suitable for traveling, with black accessories, and an orchid corsage. The maid of honor, Dolores Goulet of Muskegon, Michigan, wore a taupe suit with green accessories and a corsage of yellow roses. The mother of the bride wore a dress of brown crepe with gold accessories, and a corsage of yellow roses. The groom's mother wore a black dress and a corsage of red roses.

Accompanying the groom as best man was Ronny Bell, his brother. A reception after the ceremony was held at the home of the bride for relatives from Plymouth, Farmington, Muskegon and Detroit. A wedding trip was planned for a week in northern Michigan.

The groom graduated from Farmington High School and is employed with the Michigan Bell Company in Plymouth. The bride graduated from Northville High and works for Western Union.

The future home of the newlyweds will be in Plymouth.

Valve-in-Head - and Fireball too!

White downy trees, as if painted, available at extra cost.

It seems that valve-in-head engine design is becoming quite the thing, now that gasolines are stepping up in octane rating and higher compression ratios begin to be worth while.

Well, that's dandy as far as Buick is concerned.

For more than forty-five years, Buick engineers have been working with, developing and learning all about valve-in-head engine design.

So quite some time ago Buick applied a principle, possible only in valve-in-head design, which still remains a Buick exclusive.

It is Fireball design—and it's an interesting engineering story.

It comes from a specially shaped piston, designed to roll each fuel charge into a compact, whirling, ball-shaped mass. It goes a step beyond high-compression ratios, because it means better mixing of fuel—and so better burning.

Result: More good from each fuel charge. A touch more life, pep, ginger. More of that happy, satisfying feel of power and zip that give Buick its good name as a performer.

So remember, as more and more cars climb on the valve-in-

head bandwagon, that Buick is still calling the tune. Still ahead in knowledge and experience and development of a principle that has always been recognized for its greater basic efficiency.

With self-setting valve lifters adding new quiet and washing out tappet noise, it's plain that "Buick's the buy!" on engine design as in other ways.

Come satisfy yourself on that score—and get a firm order in either with or without a car to trade.

BUICK alone has all these features

Silk-smooth DYNAFLOW DRIVE • FULL-VEH VISION from enlarged glass area • SWING-EASY DOORS and easy access • "LIVING SPACE" INTERIORS with Deep-Cradle cushions buoyant-riding QUADRUPEL COIL SPRING • Lively FIREBALL STRAIGHT-8 POWER with SELF-SETTING VALVE LIFTERS plus HI-POISED ENGINE MOUNTINGS • Cruiser-Like VENTILATORS low-pressure tires on SAFETY-RIDE RIMS DUREX BEARINGS, main and connecting rods BODY BY FISHER.
