CHEERY NEWS AIDS LONELY SHUT-INS AND SENDERS ALSO

The secret of victory over dis ouragement is to transfer you couragement is to transfer your thoughts from yourself to some-one else's difficulties and prob-lems. If we can accept other peo-ple's afflictions as a challenge to ourselves, and help them stand on their feet spiritually whether or not they can physically, we can soon forget our own troubles in helping to eradicate other people's problems.

That is why a word of cheer to the shut-ins helps two-fold. It not only cheers the receiver, but makes the sender feel better also.

One of the arguments being used

One of the arguments being used against Governor Williams' proposal to levy a four per cent corporate income tax is that it will drive Michigan industry out of the state. The Department of Economic Development is now preparing a study which may have an important bearing on this question. Data furnished by power companies is being used to determine why industries have come to the state and left it since 1339.
