To all appearances it is a conventional four-door model. But the rear seat cushions fold away and the entire back opens to provide access to more than 130 cubic feet of cargo space. When not in use as a carry-all, the "Traveler" is a deluxe, six passenger family sedan.

U-M Research Will Help Build 2 Michigan Harbors

UNIVERSITY OF MICHIGAN research will assist engineers in building harbors of refuge for small craft at Port Sanilac and Port Austin, two Michigan towns on Lake Huron.

Pictured above is the "Port Sanilac" harbor inside the University's wave-tank laboratory as tests are run to determine the proper location and length for

a breakwater. Waves, which out in Lake Huron would be seven feet high, are rolling in as Ernest P. Brater, associate professor of civil engineering, notes the results.

The work, under the direction of Prof. C. O. Wisler, is being done under contract between the University's Engineering Research Institute and the U. S. Army Corps of Engineers.

Motherless Asked To Remember Shut-Ins On Mother's Day

Make a shut-in happy today. Cherish their friendship. Make your presence a joy to them. Either by your friendly calls or Cherry Cards.

Such a person is Mrs. T. Knapp, 2104 Military, Detroit.

Mrs. A. Bologna, 2003 S. John Daily Road, Inkster, Mich.

Mrs. Sue Golt, 1405 Hospital Road, Route 2, Pontiac, Mich.

Next time you meet Mrs. Mae Holmes, 24129 Hathaway Road, Farmington, and you notice a special glow about her, it's because she has the happy feeling of know-

ing that in honor of her mother, who passed away 21 years ago, this year she is going to make some other mother, who is a shut in and lonely, "happy" on Mother's Day.

People from all walks of life took time out, on April 10, to honor the 80th birthday of shut-in Charley Johnson, at the Glenbrook Hospital, Farmington. With Mr. and Mrs. Fred Grinnit, Provost Avenue, acting as host, they provided a day that all the shut-ins at the home will long remember. Mr. Johnson beamed as he displayed his well over 100 cards and letters, many of whom were from you, unknown friends in the Farmington area. Others came from all over the United States, while still others were from King George, Winston Churchill, Luella Parsons, Governor Williams, Ted Malone.

There was a photo and a cute personal note from Bing Crosby. He wore a beautiful flower, the gift of another unknown friend. Mr. Harry Miller of Dearborn. There were even special refreshments of turkey, ice cream, candy and three huge birthday cakes. Mr. and Mrs. Grinnit and Mr. Johnson wishes to thank you all for your part in truly making this the happiest birthday he has ever known.

However, they are hoping you won't forget some of the other folks at Glenbrook who also need a bit of fussing over. There is truly nothing more heartbreaking than to see a lonely old person, forgotten and left alone on a beautiful Sunday afternoon.

MICHIGAN Motoring

Now that the weather is clearing, and we're seeing the first signs of warm weather ahead, it is enjoyable to drive out of town to watch for birds, first hints of flowers and the budding trees. Everyone enjoys getting out in the Springtime — and so you can expect to find more and more automobiles on Michigan highways daily.

That's why it is so important to be doubly careful in driving... to check your auto to make sure it is safe to drive. You must watch out, too — for the other fellow who may be taking chances or whose auto may not be in good running condition.

Speed, too, takes a big toll on the highways — so bear in mind this rate of speed. There are always more traffic deaths in the country than in the city. In one recent year there were 23,700 deaths from traffic accidents. Of that number, 15,600 were city deaths; 21,200 were rural. Look at those figures. Rural accidents accounted for almost twice as many deaths as city accidents.

Remember those figures when you are driving on the highways. Drive with extra care at all times — drive with the constant resolve that you will not be the means of losing a life!
