Graduates At Flint

Miss Marian Leona Harger of Flint, daughter of Mr. and Mrs. Cedric Harger and twin sister of Daniel Goodrough Harger, was graduated from Flint High School Wednesday evening, June 8.

Both graduates, grandchildren of Mr. and Mrs. Sayers Harger of Oakland Avenue, are planning to enter college in the fall.

Seniors All Burned Up About Annual Class Boat Trip

Sun and wind took their toll among the 59 Farmington High School seniors who completed the annual senior trip. Despite red eyes and tender epidermis, the seniors report having a good time.

One of the satisfying highlights of the trip was an abundance of good food. Even the husky appetites of the normally famished Farmington teenagers were appeased by the meals during the trip.

Michigan Mirror

(Continued from Page Two)

The state treasury squeeze, caused by earmarking of state funds for local government spending, is wrecking the state park plan. The \$200,000 maintenance budget, cut from an original \$1,165,000 request, must be spread over 60 parks.

Fishermen and hunters contribute to development of special facilities through purchase of licenses. Yet the state park system, numbering the fishermen and hunters six to one in total attendance, has no revenue of its own derived from those who enjoy it.

The state department was again rebuffed by the legislature in its attempt to ask discretionary authority to charge admission and use fees, if and when and where needed. Legislators were skeptical, hesitant and reluctant. The bill died in committee. The department is about convinced that broad discretionary power is not the answer to the park financing problem. Perhaps use fees, limited to specified facilities, would be more acceptable.

The Straits of Mackinac state park, administered by the Mackinac Island park commission, is self-supporting through small fees for camping and electricity. No charge is made for parking or for admission. Here is perhaps a partial answer to the lack of money to develop the state park system as the legislature originally planned.

"We have the lands and waters, the physical features and the climate," said Elmer, state park chief. "We need funds to develop the facilities needed for public recreation and for the proper maintenance and operation of these facilities."

When you visit the state parks this summer, don't be too critical. There are 60 parks, good and poor, large and small, to be maintained. Everything is free - admission, camping, bathing and automobile parking. You shouldn't have much trouble getting your money's worth.

On their arrival in the Windy City, they saw the sights from two buses. According to The Falcon, school newspaper, the seniors ally (?) assisted the driver in pointing out points of interest.

The sightseeing tour ended at the hotel docks, where the seniors clambered aboard the City of Cleveland, which took them to Mackinac Island, thence to Detroit.

Aboard the City of Cleveland, the group danced to a five-piece orchestra, which played both nights. The second night, a talent show presented by students from different schools aboard ship kept the audience happy. Dorothy Howard was complimented by the captain for her piano playing. But Howard Packard, George Seaman and two boys named Seaman took all prizes with their quartet.

Advisors for the trip, Miss Lingo, Mr. Oliver and Mr. Maattala, report the group well behaved, despite their bookkeeper giving opportunity to laugh at a mistaken stateroom assignment.

Redford Site Of Summer School

Again this year Redford's summer school, 21431 Grand River, is offering a jewelry and leathercraft class for any adult or student of any age who is interested in making and creating unusual articles of sterling silver and leather. The tuition for the class, which will meet for one and a half hours every morning or equivalent, will be \$6.40. Two and one-half hours of high school credit will be given for the eight-week course, beginning June 27 and ending August 19. Stone cutting and polishing are also taught. Cut and polish all those rocks you brought back from the West.

This class affords an opportunity for tired mothers to relax with a hobby one or two mornings a week. It is also a worthwhile outlet for restless children above the age of six. As the size of the class is limited, early enrollment is advised, according to Mrs. Amy Williams, teacher of the course.

Robert W. Miller, son of Mr. and Mrs. Stanley Miller, 33309 Grand River, won a trophy "for paddling his own canoe" in the Water Carnival held Saturday, June 4, at Michigan State College.

Bob came in second in the Men's doubles tournament, as well as in the canoe tilting event. However, he took first place in the Men's single canoe races.

MARGARET WOLFE

Margaret Mary Wolfe, daughter of Mr. and Mrs. Edward Wolfe, 22408 Lila, has graduated from Mercy College of Nursing, Detroit. She also received training at St. Joseph Mercy Hospital, Detroit, and was an affiliation at Children's Hospital, Detroit, and Mercywood Hospital, Ann Arbor.

Margaret attended Our Lady of Sorrows School and was graduated from Farmington High School.

Since nothing is settled until it is settled right, no matter how unlimited power a man may have, unless he exercise it fairly and justly his actions will return to plague him.

WASHINGTON MERRY-GO-ROUND

(Continued from Page Two)

berg argued that it hadn't been put in "contractual form", and urged the secretary of state to see that our right-of-way to Berlin was made clear at Paris.

But after it was all over and the votes showed young Roosevelt to be the overwhelming victor, Congressman Marston of California on the floor of the House. Quote he:

"You want to get aboard with Franklin Roosevelt. He's really going places."

Note—Young Roosevelt's victory in New York will be a big psycho-

logical boost to his elder brother in California where Jimmie plans to run for governor.

CIO HOUSECLEANING

CIO President Philip Murray's attack on Communists and fellow travelers last week was even tougher than appeared in the papers. It was so devastating that the Communist party - liners were thrown into complete confusion and, at one point, Ben Gold, president of the left-wing Fur Workers union, became so disgusted with his fellow leftists he went out for a round of drinks. Returning, Gold stood up and denounced Harry Bridges, shouting:

"I know the party line just as well as you do."

RFC PROBE

Arkansas' hard-working Sen. William Fulbright, chairman of a banking and currency subcommittee, will make a sweeping probe of certain officials of the reconstruction finance corporation who were given plush jobs with business firms shortly after these firms got loans from the RFC.

Board of Review Meeting

Notice is hereby given to all persons liable to assessment roll of the Township of Farmington, that said roll will be subject to inspection at the Township Offices in the Farmington Town Hall on Wednesday, June 22, A. D. 1949, and on Thursday, June 23, A. D. 1949, from 9 o'clock a.m. to 5 o'clock p.m.

The Board of Review will be in session and upon request of any person who is assessed on said roll or his agent, and upon sufficient cause being shown, correct assessment on such property in such manner as will in their judgment make the value relatively just and equal. Such assessment roll received by said Board of Review shall be the assessment roll of said Township of Farmington

**Just how high is "HIGH COMPRESSION"?**

White sidewall tires, as illustrated, available at extra cost.

WHEN the talk turns to cars and car engines these days, that's a topic you hear much about.

So it's fairly interesting to note that, even back before the war, Buick engines like this one were touring the testing grounds with compression ratios as high as 10 to 1.

Even later than that this same big Buick power plant has been filling our engineers' notebooks with data on 8 to 1 compression ratios.

What has come out of this? Two or three interesting points.

First of all, that this big Buick Fireball valve-in-head straight-eight already has a compression ratio that

gets as much out of present fuels as any engine on the market.

Next, that these ratios can readily be stepped up to fit higher octane gasolines as they become available.

And probably most important of all, that high compression is only one measurement of a good engine.

There's the fundamental matter of engine efficiency—power output per cubic inch of displacement, engineers call it. On that score, Buick stands where it always has—just about tops in its field!

Which means, in very simple words—better go see for yourself.

The fun you get from your car—the pleasure and satisfaction it gives you—are best measured in just one place—behind the wheel.

So we invite you to see your Buick dealer for a firsthand test of Buick. Take it in your own two hands and find out how good it feels, how full of get-up-and-go.

It won't take long to make it pretty clear that the place to get your order in is the place where you get Buick power.
