Some kids I know stopped in the other day to hello. Before they left, we were talking big latin—and it didn't stop until I got to the grocery store. The groceryman has some news to be convinced that I hadn't recently escaped from a looney bin.

Drastric changes have been made in the Forest Hills subdivision: What once was Sunny Crest Drive is now Stansbury Street. Edgemoor Drive is not a drive any more. It's just a street. Common place Briarcliff Drive is no more. It is Bramwell. And why change such a nice sounding name as "Robinwood" into "Rockshire". The people living in the subdivision have expressed a dislike for the changes made. By the way, the roads could stand more gravel and less scraping. We certainly had a time with the mud last winter.

The Stock family of the Forest Hills subdivision had their yearly reunion Sunday, July 31. All relatives who were able to attend the affair met at Rochester Park in Rochester. There were over one hundred present, young and old. A picnic lunch was served, then friendships and loyalties were renewed.

Another new arrival in the Forest Hills subdivision is Mr. and Mrs. Cousins and their two children. They have recently bought a lot, had a well dug and are presently building a garage with a breezeway. Mr. Cousins plans to have the house built next spring and then will move out here. The who already know the joys of living among these green hills and valleys offer a welcome to Mr. Cousins and his family, and extend one hand in friendship. The same goes to the Millarch family, who just had their home completed on the same street, Stansbury, that is.

Mr. Jimmy Johnson, 21500 Northwestern Highway, a golf pro at the Glen Oaks Country Club on 13 Mile Road, departed Friday to participate in an annual golf tournament at Klinger Lake in Sturgis. From there he will go to Chicago for three days. Next stop will be at Flint, Michigan and then home. He is married and has two sons, Jimmy 4 and David 4. Mrs. Johnson usually accompanies her husband on these trips. This time, a previous appointment with the stock, expected to the next two weeks, kept her home.

Hele Illis, 12, of Edgemoor, enjoyed a few days visit with her grandparents at the lake cottage in Howell.

Patsy Gulise of 21234 Hamilton Avenue, left on June 24 for Washington, D.C. to visit her brother and his wife. Later she traveled to Arlington, West Virginia, for another stay with friends and relatives. Her parents, Mr. and Mrs. Henry M. Gulise, plan to go to Arlington soon, and will drive back with Patsy.

Mr. and Mrs. Carl Liane of Portland, Oregon, and Mrs. Bob Esh-Kramer, St. Clair Shores, were the luncheon guests Tuesday, August 2, of Miss Olga Rice on Edgemoor.

SUNSHINE LADY LISTS CHILDREN NEEDING CHEER

The world is full of people who are shy because of the unkindness of others. They cry or will not try to understand that these people did not bring on their own afflictions.

It is hard enough for them to carry their cross without all the unkind looks from others.

Miss Lottie McArthur, 6140 Regu-very Avenue, Detroit 9, would be so very happy to have a shower of friendly mail.

For the next 13 months, 15-year-old Joseph Johnson, 15707 Riverdale Avenue, Detroit 23, must be confined in a cast. He has a broken hip, arm and both legs, and he is suffering from a brain concussion. Joe was hurt in a swimming accident. Won't you, by your cards and notes, make those months a bit more cheerful?

That little girl from Farmington who was so badly burned will enjoy your cards during her shut-in hours. Dianne Pratt, c/o Pontiac General Hospital, Huron Avenue, Pontiac, Michigan.

5 year old Geraldine Wood, 15764 Mendota, has gone through many months of pain and has a long way to go before she is completely recovered. On August 2 the "Well-come" "Travelers" radio program sent Geraldine a beautiful bedside radio to help cheer her. Won't you send her a card to help shorten her shut-in hours?

These have been happy days for shut-in Charley Johnson at Glenbrook Hospital. His son, Fred, has been visiting him from Hamilton, Ontario, Canada.

We are very happy to report that Mr. Fred Griffin has returned to his home on Forest Avenue from the Central Hospital. From the short time I have known Mr. Griffin and saw his continual cheerfulness and his always passing on words of encouragement to others who were discouraged, it is impossible that he himself isn't well. He has done so much for others that many of us could never accomplish. It seems so little we would do by just sending him a card. But I'm sure he would enjoy it. The address is 19215 Frevo, Detroit 19, Michigan.

Last week a beautiful Harry Miller orchid arrived at the George Cook home on Power Road and which it came wishes for brighter days ahead.

If you know of a family where there has been a long illness, won't you please drop me their name, address and a little about them?

ADVISES PARENTS ON COMICS, SHOWS FOR CHILDREN

Comic books and movies need careful community supervision and organizations can render valuable service with this problem.

Suggestions to parents concerning the conflicting opinions about comic books and movies come from Dorothy Ekern, Michigan State College home economist.

Parents should know what types of movies their children see and what kind of comics they read. Authorities in the field of child development have pointed out that comics have certain values. Self-censorship is necessary to forbid them but to see that your child gets the most desirable ones to read.

Parents can introduce good literature to children by reading aloud to them or telling them stories which are from good literature. This will be more effective than constantly telling a child not to read undesirable material.

Your child will see types of behavior on the screen and in comics which will be strange to him and which may give him wrong ideas. Parents can talk to children about different types of behavior and explain good and bad points. This will help the child develop a finer sense of values and encourage him to make his own discriminations well in years to come.

One child may be more sensitive than another and may be frightened unduly by certain things which would not bother other children. Try to understand your child and know his interests and limitations.

Wool Value Cut By Weeds, Burrs

Burrs and weeds are common in late summer and can mean a loss in wool quality unless care is taken, says Graydon Blank, extension sheep specialist at Michigan State College.

Permanent pasture should be checked for burdock and similar weeds. If the sheep come in contact with burrs and other foreign material, their wool will be burry and seedy. This type of wool is discounted on the market.

Blank says a few minutes spent in checking a field and getting rid of such weeds will pay off in increased income when shearing time rolls around.

If a man has a right to be proud of anything, it is of a good action done as it ought to be, without any desire of interest looking at the bottom of it.

Specs And I See Eye To Eye

Asked Specs Allen to go hunting last week. Known him all my life, so I wasn't surprised when he showed up with no gun. Specs doesn't like to kill anything.

Couldn't ask for a better hunting companion, though. We tramp around the woods, and whenever the dogs flush a bird, I blaze away while Specs just watches.

Told him once I was surprised he went along... feeling the way he does about shooting anything. "Well, Joe," he says, "you do what you think is right and I'll stick to what I think is right. I've no call to dislike you for not seeing everything the way I see it."

From where I sit, open-mindedness is a wonderful quality. There are plenty of things Specs admires that I don't care for. Like his fondness for butterfliers. I'd rather have a glass of beer anytime... but Specs Allen and I don't let little differences get in the way of something big like friendship.
