New P.T.A. members, those parents of soon-to-be kindergartners, are receiving little slips of paper through the mail this week. To hasten routine procedure of getting your tot off on his educational journey, will you give these forms your prompt attention? School starts next week and there is no time to be wasted.

A telegram to the Carlyle Haigh family Saturday sent the household into a flurry of excitement. Mrs. Haigh's former Cincinnati school chums, Mr. and Mrs. Wayne Wardell of Columbus, Ohio, were coming for a visit. The Wardells, who have a family of four, are missionaries recently returned from India.

We're sorry to see the empty house at 2119 Middlebelt Road for our good neighbors, the Emily Beach family lived there for many years. Mrs. Beach and Roberta have moved to Clarita Street, near Middlebelt and Seven Mile. Mr. and Mrs. Edward Beach and Linda have purchased a home near Plymouth, Michigan.

Mrs. Vern Hawley of 21125 Middlebelt, feels very much at home after living here only nine months. She feels particularly so since Saginaw Street was changed to "Scotten" for her childhood years were spent in Detroit next door to a Scotten Street. Very unusual, she says, the fact that, as a former years, just up the street from her residence is a picturesque little Lutheran Church with bells that ring every day.

Mr. and Mrs. Harold McCaughey are looking forward eagerly to reaping the harvest this fall of their two years' work at 29133 Scotten. The McCaugheys have a beautiful, large ranch-type home they have built in their spare hours, living in half of the residence which they completed two years ago. Mrs. McCaughey has been wielding a pastel-tinted paintbrush furiously these past weeks and soon will be welcoming in her neighbors to proudly show their finished home.

Just about every house in this neighborhood has won a new coat of paint, outside or in, this summer. A good many "vacations" have been spent in this manner and it appears that nearly every one is saving high labor costs by doing their own work. Mr. and Mrs. Clarence Billings of Middlebelt have a new garage on their lot and the Thomas Munn family of 2928 Scotten have had their garage remodeled, extending it to include a nice workshop at the back.

An urgent postcard from Grandma sent little Deanna Eckert to Iowa last week end to share her third birthday celebration with Mr. and Mrs. Ray B. Owen. Her other grandparents, Mr. and Mrs. Ross Eckert of Detroit, entertained in Deanna's honor Friday evening with a week-end corn roast at Lola Valley Park. Joining the fun were Mr. and Mrs. Fred Kaiser, Misses Grace and Mary Jean Kaiser of Detroit, Mr. and Mrs. Max Eckert of Dearborn, Miss Virginia Otterbein of Vetsburg and Deanna's parents, Mr. and Mrs. Dean Eckert of Farmington.

Does anyone know the whereabouts of a beautiful red Irish setter which evidently has found a new home during the past six weeks? The dog has a new 1949 license waiting for his return to the Arthur Hopkins residence on Scotten, and the family is plenty homesick. A personal search has been carried out in the surrounding areas and advertisements have brought no results. However, there is a rumor of such a dog seen here and there. Have you seen her?

FRAMEWORK OF PEACE—Onlookers gaze at the progress being made on the new United Nations location in New York City. In the background is the skeleton of the U. N. Secretariat building, the first and tallest on the site. This 32-story structure will have 2700 air-conditioned offices.

## Isolate Animals Back From Fairs

Generally the best animals on the farm go to the county fair for exhibition. For this reason, Dr. B. J. Killham, Michigan State College extension veterinarian, believes it wise to take every precaution to protect them from disease.

County fairs operate under state regulations that require clean bills of health before animals can be shown. This not only protects your own stock but that of other shown as well. Dr. Killham advises getting necessary papers from veterinarians so that it isn't done as a last minute rush job.

Quarantining show animals when they are returned to the farm is an extra precaution that is wise. By isolating them for three weeks from the rest of the herd or flock, you're making doubly sure any infection picked up in the show ring isn't spread.
