Necessary dredging will cost \$225,000 according to Army engineers who will supervise the worf. The federal government's share of the cost will be \$135,000; local agencies will be expected to raise \$90,000. To date, the inland Water Roule Improvement Association has secured \$30,000. Hearing proponents of the plan, the commission agreed to ask the next legislature to approve inclusion of \$60,000 of general fund money for the purpose in the congerva-

LOOKS like a Jet Plane **TRAVELS the same way**

You see it quick stepping along the highway-and you can't miss the parallel.

You glimpse a bold front end-sleek tapering fenders—flaring, streamlined roof lines—even to "double-bubble" taillights, here is the look of "the fastest thing that flies."

Then you try one on the road, courtesy of your Buick dealer.

Adjectives flock into mind-"agile""nimble"-"eager."

You realize that here is action, swift and easy-action born of Fireball valvein-head straight-eight power-action floated on soft coil springs that, for all their lightness, keep your grip on the road sure-footed and firm.

This, you tell yourself, is traveling as traveling should be.

Comfortable-in the spacious manner of king-size interiors. Easy-in the lightness of controls, which can include even the magic of Dynaflow Drive* if you wish. Pleasurable-in the wide, wide outlook that's yours, and the inner satisfaction of having a Buick for your very own.

And we might add another thing, just by way of being practical.

It's frugal too. Frugal in a first cost that's actually less than for some sixes. Frugal in the surpris-ing way such a sizable car gives the go-by to gas pumps. .

And if you have Dynaflow, frugal

even in many upkeep costs you can forget about—such as clutch troubles, transmission maintenance, even many engine servicing costs.

Why not put yourself into one of these jet-lined beauties right now? It's more easily managed than you might imagine

—as you'll see by talking to your Buick dealer.
