Headline Stories During 1949

(Continued From Page Three)

week end. U. S. 16 carried an extremely heavy volume of traffic but it seemed to be more spread out than the week end of June 21-23 and 26. During those three days traffic reached record proportions.

Only minor accidents were reported, with no injuries and only slight property damage.

CLARENCEVILLE PRINCIPAL

(From the issue of July 7, 1949)

Mr. Max Millard has been named to the Clarenceville High School principalship. Mr. Millard comes from Martin, Michigan, where he has been principal the past year. He replaces Mr. Edward Chappell.

MAX MILLARD

former principal. Mr. Millard took over his new duties July 1.

Mr. Millard attended Owosso High School, graduating in 1935. He studied at Albion College and at the Central Michigan College of Education. He received his master's degree from the University of Michigan in 1945.

In 1942, Mr. Millard was commissioned a Second Lieutenant in the Marine Corps, and served as dive bomber pilot in the Central Pacific area.

The Millards have two children, Linda, 4, and William, 15 months.

PASSES HEALTH ORDINANCE

(From the issue of July 23, 1949)

Adoption of a health ordinance for Farmington Township was unanimously approved by the Board at a special meeting held Thursday evening at the Town Hall.

The Township Board approved the adoption of the ordinance following a study of each section and a discussion with a civic committee. Representatives of both the North Farmington District Civic Association and the Southeast Township Civic Association participated in the discussion. Mr. G. V. McLaughlin, Mr. Edward Schmidt and Mr. John Mackay represented the North Farmington group. Mr. Fred Westlake, Mr. Thomas Thornton and Dr. Floyd Sumrill attended from the South Farmington group.

Provisions of the health ordinance will take effect immediately on all new buildings to be constructed. The ordinance provides up to six months for compliance by present residents, and in some cases up to a year. It was pointed out by the Board that this health ordinance may be amended at any time at the discretion of the Board of Health.

The purpose of the health ordinance as outlined is to protect the public health and prevent public health nuisances to exist in Farmington Township. In general, the ordinance forbids the maintenance of outside toilet facilities except on farms of 5 acres or more. It requires the installation of septic tanks where no sewer mains exist. It refrains persons from dumping sludge, rubbish or garbage on the ground or in ditches.

Residents have up to six months from the adoption of the ordinance will take effect immediately on all new buildings to be constructed. The ordinance provides up to six months for compliance by present residents, and in some cases up to a year. It was pointed out by the Board that this health ordinance may be amended at any time at the discretion of the Board of Health.

BUILDING CODE PLANNED

(From the issue of August 18, 1949)

Approval of a resolution indicating their intention to adopt a Building Code for Farmington Township was passed by the Board at their regular meeting held Tuesday evening at the Town Hall.

The intention to adopt such an ordinance was unanimously approved. According to the opinion given by Judge Arthur E. Moore the resolution of intention must first be adopted before the ordinance is prepared, adopted and published. The regulation of intention must be published within ten days of passage.

A proposed Building Code was read but could not be adopted at Tuesday's meeting even if acceptable, according to the opinion handed down by Judge Moore. However the Board agreed that the several changes should be made in the proposed ordinance before it is adopted. After the ordinance is studied, changed and approved it must be given public notice.

It within thirty days after the adoption of the ordinance a petition is signed by the electors con-

stating of eight per cent of the total votes cast for Governor in the last election asking for a referendum, then after filing the petition the ordinance shall be instituted until approved by electoral vote.

COMMISSIONER RESIGNS

(From the issue of August 18, 1949)

Frederick W. Bagnall, commissioner of finance and Mayor pro tem of the City of Farmington, resigned from the City Commission last Wednesday night.

Bagnall's resignation was accepted by the Commission with regret. His resignation became effective immediately. Bagnall stated that he was sorry to leave the Commission but was forced to do so because of his health.

He has served continuously on the Farmington City Commission since 1937. Bagnall was first elected to the commission to fill the vacancy created by the resignation of Fred Staman. He has served as finance commissioner for the City of Farmington since 1941.

Bagnall is resigning September 1 from the Detroit Edison Company. He is superintendent of overhead lines. Bagnall has been very active in community affairs since becoming a resident of Farmington.

He is moving to his summer home in Neeshish Island, near Sault Saint Marie, Michigan.

POLICE AID SEARCH

(From the issue of Aug. 25, 1949)

Farmington City Police joined state Police and Wayne County Sheriff's office in the search Monday for Arthur Mayser, slayer of Barbara Jean Aberl, his nine-year old niece.

Mayser's body was found late Tuesday afternoon in a woods in Livonia Township. He had taken his own life, shooting himself with a .22-caliber rifle he had carried off with him when he fled Sunday.

The body was found by three Livonia Boy Scouts. In Mayser's pocket was a note directing police to the Waterford dam in Northville where police officers found Barbara Jean's body.

FOUR POLIO CASES

(From the issue of Aug. 25, 1949)

Four positive and three possible cases of infantile paralysis exist in Farmington Township, a survey of local doctors showed Tuesday. Of these four, three have already recovered nearly completely, and one will require hospitalization for probably a year. The three cases nearly completely recovered were two children and a young woman.

The fourth case, a three-and-a-half year old girl, is being treated at the Slater Kenny Polio Center. Doctors report the child progressing favorably, but it is not known whether or not she will entirely regain normal use of her right arm.

INSTALL CUT-OFF LIGHT

(From the issue of August 25, 1949)

Work has begun on the installation of a regulation traffic light on the Grand River Cut-Off at the Farmington Road intersection, Kenneth Loomis, City Police Commissioner, announced this week.

The installation is expected to be completed this week end. Loomis stated Tuesday that workmen had completed all but the lifting of the support wires which hold the light in place. Installation of the light is being conducted by the Oakland County Road Commission under the supervision of the State Highway Department.

A special breaker has been installed on the Cut-Off which will trip the light after a certain number of cars have crossed. It will also operate on a time changer. The light will operate from the volume of traffic on the Cut-Off or on a time basis depending on the period of day.

The purpose of the light is to allow a more free flow of traffic on Farmington Road.

START REPAIR WORK

(From the issue of Oct. 13, 1949)

Emergency repairs of roads in four sections of the Township was begun this week, Harry McCracken, Farmington Township Clerk, announced Tuesday.

The action followed a special meeting of the Township Board held last Thursday evening, October 6. At the meeting the entire road situation was discussed along with the estimates prepared by two road contractors. The cost survey was ordered by the Board in order to get preliminary estimates on the work to be done.

REPLACE REPORT CARDS

(From the issue of Oct. 13, 1949)

The first round of report card marking is to be eliminated in the elementary schools this semester, the Farmington Board of Education decided at its regular meeting Monday night.

Instead of marking report cards, conferences will be held by parents and teachers of all elementary grade pupils. The conference system, however, will not replace report cards completely; only the first marking of the cards will be eliminated. Miss Minnie Zielke, elementary grade supervisor of the Farmington school system, appeared before the Board Monday night and offered the plan as part of the Board's continuing study into the school system's workings.

START COMMUNITY CHEST

(From the issue of Oct. 13, 1949)

Hopes for a unified, one-package charity drive in Farmington alternately flamed, fizzled and flamed again early this week when representatives of many civic groups gathered to establish a community chest.

After meetings Monday and Tuesday nights, the group was able to announce a plan to kill five birds with one stone, and possibly save a few more. In addition to 25 United Fund agencies represented in the drive, the local Girl Scouts, Boy Scouts, the Farmington Area Recreation Commission and the March of Dimes Polio Foundation have been tentatively included.

Final approval by the National Foundation for Infantile Paralysis is expected Thursday. The City of Farmington Recreation Commission also probably will be included.

CITY HALL REMODELING

(From the issue of Nov. 10, 1949)

Work was started Monday on the remodeling of offices in the Farmington Municipal Building.

The city employees were all but evicted as workmen broke a hole in the east side of the building, tore down the office partition, and readied the building for remodeling.

Because of the dust, noise and flying rubble, the city's offices

were closed the early part of the week. The offices will be open during the remainder of the remodeling, however.

According to Russell Ellis, contractor, the entire job of remodeling the structure will require a month. This includes the final painting.

APPOINT ZONING BOARD

(From the issue of Dec. 15, 1949)

Four Farmington Township residents have been selected by Oakland County Probate Judge Arthur E. Moore as members of the Farmington Township Zoning Board. It was announced this week by Ernest Blanchard, Township Supervisor.

The new members named by Judge Moore are: Edward Moseman, 26540 Farmington Road, for a term of four years; Leo Kelly, 21303 Albion Street, for a term of four years; George McLaughlin, 22125 Fourteen Mile Road, for a term of two years and Edward Schmidt, 25239 Halsted Road, for a term of two years. The selection of members was made December 6 at a session of the Oakland County Probate Court at the Court House in Pontiac.

Appointment of the members officially establishes the existence of the Farmington Township Board and is one of the main steps in the organization of the zoning program.

On feeding aspects, speakers are planning to tell of experiences in giving cattle hay, fed as silage versus dry hay; feeding once a day; and pasture production. Up-to-date dairy buildings will be described as keeping quality of the product for farmers planning remodeling.

For wise buying, order from a list, but have means flexible enough to change 1 time market offers a bargain. Buy in as large quantities as keeping quality of the product and storage space permits.
