Michigan Mirror

(Continued from Page Two)
butter, cheese and other dairy products.

Last December 19 a four-year old Holstein cow, "Minnor Creek Eden Repeat", completed one year lactation period during which time she produced 35,543 pounds of milk. This set a new national record for volume of milk production, and it gave to Michigan another championship honor in the field of agriculture. If all of the butter fat produced by this one cow had been processed into butter, it would have totaled 1,530 pounds! This production, the achievement of P. K. Moxley of Flint, is equivalent to that of the production of six average cows.

Member newspapers of the Michigan Press Association, Inc., most of which are in small towns and rural areas, take great pride in the 1949 achievement of 370,000 farms which produced more than \$600,000,000 of agricultural products.

In volume this record exceeded previous yields, but in value, due to decline of commodity prices in 1949, it was somewhat below the previous year's high.

These achievements are taken from a miniature newspaper front page which was distributed to newspaper editors and their guests at the dinner, Cosponsor of the "All-Michigan Dinner", was the Michigan Department of Agriculture, administered by the Michigan Agricultural Commission.

Give Us Back Our Sidewalks, Slim!

I wrote that over an article in the Clarion last week, but I didn't like doing it. After all, the man it was aimed at — Slim Henderson — is a good friend of mine.

Slim came into quite a windfall last month, and bought the old Clarke place. The deed gave him title to all the land — right down to the street. Then Slim started to take up the sidewalk to make his lawn look better.

I felt it wasn't fair to the town and said so in my article. Next morning Slim came around and wants to know what I mean — gets

ting folks tiled against him. I felt ornery myself, and we had quite a set-to over the whole business.

From where I sit, that was foolish. Once we'd cooled off (over lunch and a bottle of beer at Andy's Tavern), Slim decided the sidewalks should stay — for the common good and I promised next time I'd take a good look at the other fellow's point of view before writing any articles about him!
