## Sincerely Yours:

Letters submitted to the Editor for publication must be signed. Opinions expressed in this column are those of the writer and do not necessarily represent the policies of this newspaper.

To the Editor:

In spite of the 3-to-2 election result, The Enterprise deserves warm commendation for having vigorously supported the Building Code. Praise is also due to the far-sighted citizens who, in letters to the editor, took a similar stand and to Dr. Floyd Sumrell and his South-east Farmington Civic Association. Scores of persons are paying high prices for flimsy, jerrybuilt houses that are really firetraps. This is the type of house that the voters authorized.

As time passes, as floors sag, roofs leak and short-circuits start fires, the truth of The Enterprise's statements will be brought home to these unfortunate victims of shyster builders.

And whom may these victims thank for their plight? They may thank three of our five voters in the township and especially the organizations that campaigned against the simple, reasonable regulations.

Chester E. Downing, Pres. North Farmington District Civic Association.
