BRIGHT NEW TOUCH TO A BIG BOLD REAUTY

What's the secret of the "UNRUFFLED" RIDE ?

SOME car makers say springs make the ride—and so we give every Buick four of the soft, gentle coil springs practically all cars use on front wheels only.

how power is transmitted to the rear wheels.

We agree—and use a torque-tube drive, that takes up all the thrust, freeing rear springs of driving

Some stress tires—so you'll find low-pressure casings on every Buick, mounted on our own kind of Safety-Ride rims. Some play

up shock absorbers — we make ours fast, soft and sure in action, to wash out all "after-bounce."

FOUR-WAY POREFRONT

This rugged front end (1) sets the style note, (2) saves on repair costs—vertical bars are individually replaceable, (3) avoids "locking horns,"

(4) makes parking and garaging easier.

weight - and engine mountings. which on Buick are a very special

They're all important - yet the plain truth is no one of these things—or two or three—gives a ride you can truly call "unruffled."

We feel it takes all of them springs, tires, shock absorbers, drive, engine mountings—care-fully and precisely brought into balance with each other.

You can see why we think so in any Buick-SPECIAL, SUPER or ROADMASTER.

You can feel it on cobblestones

and weather-pocked macadam, country lane and city street. You even feel it on boulevards, which grow still smoother when you travel them in a Buick—especially when it has Dynaflow Drive?

So we would like you to try a ride that is truly "unruffled." Free of harshness—undisturbed by jounce and jitter-level-steady-going-

Just ask any Buick dealer for a chance to try out any Buick. You'll find it "the ride of a lifeand the buy of a lifetime

*Dynasion Drive is standard on ROADMASTER, op-tional at extra cost on SUPER and SPECIAL models.

Only Buick has Dynaflow_ and with it goes:

HIGHER-COMPRESSION Fireball where-in-head power in fires engines. (New F-263 engine in SUFE models.)

NEW-PATTERN STYLING, with MULTI-GUARD ferrfront, Inger-fibrough fenders, "double bubble",

Indigitat w WIDE ANAIOS USIBILITY, date-up road where the fineward and bods - TRAFIEL-HANDY SIZE,

less over-cell length for equies parking and generging, short homing modes - EXTRA-WIDE SEATS coulded
between the calss - SOFT BUICK RIDE, from a local paringing, Sorbly-Ride rims, low-pressure lives, ridesteedying toproparbate - WIDE ARRAY OF MODES with Body by Fisher.
