

Senior Hi-Lite

A red-headed senior! Quite a rarity! But don't call her "Red" because she can't stand it. She stands 5' 1 1/2" and weighs between 110 and 115. It depends on how many fish and chips she ate. She's got freckles and big blue eyes and thinks Alan Ladd is a doll ever if she hates the movies.

Her name is Carolyn Wells and she's 17 years old. She was born August 15, 1934, in Detroit and has five older sisters, all married. She wishes she had a brother so she could wear his shirts. The poor girl has no television set so she listens to all the disc jockeys and hill billy programs on an old-fashioned radio. She loves hill billy music and square dancing at Gramer's. In fact, there's nothing she doesn't like to do.

Besides hill billy music she likes Al Albert as a male "pop" vocalist. She doesn't pay any attention to female vocalists and doesn't have any favorite female movie stars. She's a typical woman. She loves all flowers but thinks lilacs smell prettiest and look prettiest, too. Blue is her favorite color and she likes to wear skirts and sweaters to school. Even though she doesn't have Mr. Mann for a class, she likes him best and Homemak- ing is her favorite subject.

At the present moment, graduating is her main ambition.

Sophomores Capture Volleyball Championship

The Sophomores defeated the Seniors 23 to 23 in the final round of the volleyball playoffs. This victory enabled the Sophomores to capture the volleyball championship and also to play the match at an assembly at a later date. The Sophomores and Seniors ended in a deadlock for first place at the end of the regular tournament play, but the Sophomores won the title. They lost only one game during the tournament while the Seniors lost one game making the playoff necessary. The final game in the tournament, the 23rd game of two of their games. The Freshmen rounded out the standings by coming in last with no victories to their credit.

The volleyball tournament was part of a noon program which was sponsored by the Student Council. It was played during the winter months to provide recreation for the students. The volleyball tournament will be played against the faculty at a student assembly.

Report cards will be coming out again soon, and you can say you have earned the grades you have. But did you earn them honestly?

Just what does the word honesty mean to you? Does it mean to be truthful? Not to tell lies? To be a good citizen? Let's take a look at what the dictionary has to say. There are several different definitions for this one word: freedom from deceit, fairness, straight forwardness and upright-ness. But to sum all of these meanings up into one good definition it would be most truthfully stated: Honesty is the quality of a person that shows him to be fair and truthful in speech, above cheating, stealing and misrepresentation.

When you are taking a test in one of your classes, do you glance on your neighbor's paper? When you come to a dance do you try to get in without a ticket? When ice cream is being sold, do you just put your hand in and take a few? Do you take someone else's lunch just for fun? Well, all of these things are considered dishonest and if you've done them, you're not being a very good American citizen.

When you are dishonest, you only cheat yourself. You may think you are fooling everyone but it's you, yourself, that is being fooled.

In America, schools are for building better lives, learning what is right and to have better social standings. If you don't learn anything in school you should learn about being honest, for once you start out being an honest, truth-ful person, you will find all the better things in life will come easily. You will become a true American citizen. Remember it is always said, "Honesty is the best policy." Let's think about it. P. S.

ROLLING DOWN THE RIVER

By Bob Kettler

Well, here it is! April once again and this country was ruled by Indians, there was no public debt, no taxes and all work was taken care of by the women. When all men were a couple of wisecracking white men and have to civilize the joint.

But then again, if they don't come around, we will not be here selling you the finest car that money can buy, yet you de-vised. It's the Studebaker for 1952 of course, with its miracle V-8 engine. His boss says at the factory can crank so much power and so much rugged dependability into such a compact package we'll never know, but we're glad they did. It gives your Studebaker unsurpassable get-away, smooth, easy accel-eration and so much reserve power you'll never use it all. Economical too, and you'll have to drive a sleek new Studebaker to fully appreciate its extra performance.

So this day a fellow with a brand new Studebaker comes in to tell us he thinks the car is swell and will we give it that first check-up so he can be on his way. The boys take the car into the shop and he spends a bit of time telling us of his young daughter and her help to get the car for a bit of check-up of her own. The doctor looks here and there and then presses the chest of the little girl. "No use, Doctor," she says, "I press there too and it won't squeak for me either."

Come to think of it, that car of yours won't do much squeaking either if you let the boys in the shop take it over for a while. A complete lubrication, plus new oil, plus a bit of tune-up will do wonders. It works through a long tough winter and really can use a bit of help along about now. We'll be glad to see you too!

So that's that for this week, but someone tells us that high heels are an invention of a short girl that gets tired of being kissed goodnight on the forehead.

Yours, BOB KETTLER
