The mud situation is clearing up some lately. The work of the graders is helping a lot but gravel is much needed.

OPEN YOUR EARS TO THE FACTS ON CAR VALUE

I turned over 61 pledge cards for blood contribution to Mr. Tager of The Farmington Enterprise last week, and there should have been twice that many from this area. However, if you refused to contribute before and now find that you can't do it, I find and we will deliver a pledge form to you — or fill out a form at the Farmington bank. We still have some residents to call on and perhaps we can get 25 more pledges or so. DO YOUR SHARE.

Have you noticed the trucks and excavating equipment working in the area last week and this? A lot of you wonder where your money goes — well here is a good example. The city is filling in the soft spots in the streets and will grade and surface them a lot earlier than in previous years. This should result in better roads earlier, and should make them last longer.

Notice also all of the signs which have been placed on your own streets at the intersection of Lake Road and Shawwassee — speed limit signs — Slow — Children signs, etc. More evidence of the use of your taxes, and of the interest of the Council and City Manager in doing the right thing.

The restrictions committee of your association has not been idle — they have called attention of the City Manager and Council members to various violations of the building and zoning laws. Several are being looked into and any hearing in these regards will be publicly announced in The Enterprise and all interested parties may attend. If you have any questions about such violations, attend the Civic Association's regular monthly meetings. Call me and I'll tell you when and where.

The City Manager has reviewed the street situation in this area and our request in obtaining method and cost details about road building, which details will later

On Tuesday of this week I deposited \$407.00 to the account of the Association at the Farmington bank. This was the amount collected during our canvass recently for the very necessary spraying of trees in this subdivision. We've still more canvassing to do, and will send you a list of names for the purpose of collecting on unpaid pledges. By the time we've finished we will have enough to pay for the entire job in full. Go together with Frank Nigholls, your improvement committee chairman, Jim Tennant, City Manager, and the tree spraying contractor last Friday night and we planned the job of spraying the trees. You will receive a notice telling you about the spraying and the time to park your car elsewhere during this week. The contractor will block off the streets as they are to be sprayed and will probably finish the job in one long day. The first spraying will take place Monday, April 7, and will begin about 7 a.m. The second spraying will follow, then the job will be done the next day, or as soon thereafter as the weather will permit. The spray will not harm the finish of the cars. However, they will need to be cleaned if they are contacted. Please cooperate in every way — keep your children off pets away from the spraying equipment, even though the spray is harmless, why get them messed up and in the way of the workmen?
