Here's why... it's so reliable!

has only one moving part!

You are assured of maximum reliability when you install a Timken Silent Automatic Wall-Flame Oil Burner! The one moving part—with its integral oil distributing tubes and fans—does all the work. Nothing else moves. Actuated by an electric motor, the monortor rests on a steel ball pressed into the bottom end of the shaft, with the result that the rotor spins like a top-freely, easily and with little wear. The basically different, basically butter wall-flame burner is the heart of every basically different, basically better wall-fame burner is the heart of every Timken Silent Automatic oil heating unit—conversion burners, furnaces and boilers. Phone us today for free survey and estimate. Easy terms.

No complicated pressure pump is required to force the fuel oil through a pin-point atomizing naz-zle. No blawer is required to send a blast of air into the ashpit. It's whisper-quietl
