

Jefferson Jottings

By Mrs. NORMAN MOORE
2719 Jefferson, Phone 2782-J

Mr. and Mrs. Wayne Holmes and family escaped serious injury last week when their car was smashed in an accident at Plymouth and Telegraph Roads. Although the car was damaged beyond repair, they escaped with minor bruises and cuts.

Mr. and Mrs. Biggs were Saturday evening visitors of Mr. and Mrs. Lee Doughton and family.

Mr. and Mrs. Ernest Moore spent the week end up at Twining, Michigan. Mrs. Jennie Hunter returned with them for a few weeks' visit.

Mrs. William Fairley of Delaware Street attended a copper party Friday evening where many beautiful articles were displayed.

We're really getting a house full these days. The children have added some baby chicks to their collection of pets. So far it includes a dog, cat, chicks and frogs. What next?

The beautiful days are making folks work more out of doors. We will show merit when all the lovely flowers start appearing soon.

The children of Evelyn Kreson's dancing school are busy rehearsing for their recital, which will be held in June.

Mr. and Mrs. Nastold of Ten And A Half Mile Road spent a week end in northern Michigan.

Mr. and Mrs. Elmer Lambert of Milburn Street had relatives visiting them over the week end from Ohio.

Mrs. L. A. Nesbitt of Chicago, Illinois, spent several weeks at the home of C. A. Menendez of Power Road. This allowed Mrs. Menendez to join her husband in Mexico and to tour many quaint and interesting places. Mexico was the last country on his South American trip.

Conservation County Map Supply Exhausted

Sets of conservation department county maps in book form are exhausted until the new edition is available about late August.

Reasonable requests for individual maps still can be filled. There is no charge for individual maps which can be secured from the department's lands division in Lansing and from district and other field offices.

Outlined on the maps are state-owned land and many other features of special interest to hunters and fishermen.

INSTITUTIONAL FARMS IMPORTANT PRODUCTIONS IN '51-'52

State institutional farms produced nearly \$2 million worth of food products in the last fiscal year, 1950-51. These products are all used to help feed the 32,145 patients and inmates in prisons, hospitals and sanitariums.

State farms consist of 18,000 acres, with 13,000 acres now under cultivation. Michigan leases 2,355 acres.

Each year extra cattle are sold for breeding purposes. Last year these sales amounted to \$143,600, sold Bull.

An approximate summary of the value of various products shows dairy producing \$910,000, poultry \$126,000, swine \$395,000, fruit \$51,000, vegetables \$183,000, and field crops (potatoes) \$55,000.

Now Is Time To Plant Early Garden Crops

Now is the time to plant some of those early garden crops such as radishes, spinach, parsley, parsnips, peas, onions, lettuce, carrots and beans, reports Willard E. Boserman, assistant county agricultural agent.

Some people will say that it is better to wait until the soil warms up and they are right — for certain crops. The above listed garden crops are cool weather plants and do most of their growing either in early spring or late summer and early fall.

Successful plantings can be made of some of the early crops to insure continued supply.

Radishes, carrots, beets, leaf lettuce are planted in successive plantings.

Peas are often planted in successive plantings. However, best results will be obtained by planting early, midseason and late varieties all at one time.

Organic matter is very important in garden soils. Build your organic matter supply by working into the soil such things as leaf mold, manure, green manure and old hay or straw.

State Begins Plantings

Planting of the first of some 3,500,000 seedlings in state forests has started, the conservation department reports.

Well under way is the planting of about 6,000 young trees in private reforestation projects.

Townline News

Mrs. Frazier Hults
28450 Haggerty - Farm, 1522-R1

Attending the Detroit Police Lieutenant and Sergeant Association ball at the Cadillac-Shelburne Hotel Saturday evening were Mrs. and Mrs. Ralph Bidwell, Jr., of Loveland.

Mrs. Arthur Charlebois is enjoying a week vacation from her work at the Michigan Bell Telephone Company and with her son William is spending it at the home of her parents, Mr. and Mrs. Norris Hill.

Mr. and Mrs. Harold Muir and daughters Arlene and Linda of Imlay City were guests of Mrs. Muir's sister and family, the Lyman Bushes, on Sunday. Another guest was Miss Eva Hibbler of Redford.

Mr. and Mrs. Royal McCormick and children Barbara and Royal, Jr., are guests of his parents, the Earl Richardsons at St. Ignace for the week. Mr. McCormick is having a week vacation from his work with the National Guard.

Friday callers at the Frazier Hults home were Mr. and Mrs. Malcolm McCauley of Northville and Donald McCauley of Trenton, New Jersey. Sunday dinner guests were Mr. and Mrs. Jerry Palenky and daughter Linda Lee of Manchester.

The Flying Needles Club will meet with Mrs. Eleanor Noble at her home on Penrod Street, Detroit, Thursday.

Mr. and Mrs. Norris Hill and son Harold, Mrs. Arthur Charlebois and son William and Miss Doris Crossley were dinner guests Saturday evening of Mr. and Mrs. Walter Hastings at Flint.

Mr. and Mrs. Merrill Andrews of Homewood Street invited 12 girls Saturday afternoon to help their daughter Karen celebrate her 11th birthday. The afternoon was spent playing games, after which they were served birthday cake and ice cream. Karen received many lovely gifts.

Friends of Mrs. Louise Fenrich, who lives with her daughter and family, the Nicholas Days of Gili Road, are sorry to hear that while visiting another daughter, Mrs. Irene LeManski of Redford, she fell down the stairs, breaking her leg.

Mrs. Fenrich is at the Florence Crittenton Hospital, Detroit, and is doing nicely at this writing.

Mr. and Mrs. Nicholas Day and children were guests of Mrs. Day's niece and family, the John Toivola of Livonia, Saturday evening.

PAPA GIVES A RINSE—Commander of a small army of Korean laborers who climb mountains to carry ammunition and food to the front lines, Sgt. Adelbert Wright of Englewood, Calif., takes good care of his men to the point of helping them bathe. The good hard for "Papa-san Light" because they respect him for his close relationship with them and admire him for his ability to climb steep hills despite his 53 years.

Cheaper Drugs Possible Through U-M Studies

Many commercially prepared drugs and foods may be made less expensive in the future as the result of a new University of Michigan program now training students to be bio-engineers.

A bio-engineer is a combination specialist in bacteriology, biochemistry and chemical engineering. The schedule of courses is sponsored by the Medical School and the College of Engineering.

"For example," says chairman Donald L. Katz, department of chemical-metallurgical engineering, "penicillin was first produced in such small amounts that the commercial costs kept the mold at a price of \$100 per bottle. When the bio-engineer stepped into the picture he figured out a way to grow the mold on a large scale and reduced the cost to 15 cents per bottle."

Guests Find Squirrels Deposit Nuts In Shoes

Guests at Haven Hill lodge in the Highland recreation area occasionally awake in the morning to find nuts in their shoes, between blankets and under pillows.

How the squirrels get into lodge bedrooms is an unsolved puzzle, says George Englefield, conservation lodge manager.

Warn Motorists Of Deer Dashing Across Highway

Motorists are urged by the conservation department to be especially wary now of deer unexpected dashing across the highway.

As snow disappears, hungry whitetails work closer to the highway sampling road salt and looking for the first green shoots of vegetation.

Eight deer were killed in car collisions during one recent 24-hour period in Roscommon County. In a 15-month period through February, conservation officers in the seven-county Baldwin district examined 115 deer involved in car accidents. Lake County had 45 of the highway mishaps.

Fewer Hunters Get More Pheasants In '51

Pheasant harvest climbed to 941,000 birds last fall or 18 per cent better than the 1950 kill of 791,000 ringnecks, the conservation department discloses.

Completed hunter report card tally shows about a six per cent increase in pheasant hunters. 256,000 out of 410,000 small game license holders as compared to 337,000 out of 620,000 in 1950. Individual success average improved from 2.4 birds to 2.7 tagged last fall.

Computations are based on a slight increase in card returns, or nearly 6,000 actual reports from both successful and unsuccessful small game seekers.

"The Michigan pheasant belt," eastern fringe of counties from Saginaw bay in and around the Thumb to Monroe and Leelanau, had largest bag increase in averaging 22 per cent better as an area than it did in 1950. Central range counties ... Ingham, Okemos, Zeeland, Grand Haven and Shawassee ... had six per cent fewer gunners but total range kill was up five per cent.

Mr. and Mrs. Vincent O'Mera spent Sunday with Mrs. Edith Sarantos.

Replant Potted Plants Now, Says U-M Prof

Now that Spring is here, it's time to transplant those favorite potted house plants to keep them fine and healthy and prevent them from becoming root-bound, says Dr. Elzada U. Glover, associate professor of botany at the University of Michigan.

Don't make the mistake of transplanting to too large a pot. The roots will spread too greatly and the top of the plant will become wild and straggly. Small plants should be transplanted twice a year. As they get larger, once a year will suffice. A good soil for nearly all plants is a garden loam mixed with sand and leaf mold.

Be very careful not to break the ball of soil around the roots as you transfer the plant from one pot to another.

Place the ball of soil in the new container with the top of the ball about an inch below the top of the pot. Add fresh soil, pressing firmly around the plant. Allow room for watering.

Water the plant so that the soil is thoroughly wet. Before watering again, allow the soil to be somewhat dry on top.

WOMAN'S CLUB TO MEET

The Farmington Woman's Club will hold their annual meeting on Wednesday, May 7, at the home of Mrs. Ralph Noble, 34055 Nine Mile Road. A potluck luncheon will be served at 12:30 p.m. Election of officers will be the business of the day.

GRAND OPENING OF A NEW LUMBER YARD IN NOVI
47355 Grand River Phone Northville 308

Farmington Lumber & Coal Co.
47355 GRAND RIVER AVE. NOVI, MICHIGAN John Spaller, Asst. Mgr.
30800 GRAND RIVER AVE. FARMINGTON, MICHIGAN Robert Calina, Asst. Mgr.

Dear Friend:

On the first day of May we will be opening a new lumber yard in Novi for your convenience.

May we take this opportunity to extend a cordial invitation to you and your family to drop in.

Besides our lumber, coal and builders' supplies we will carry a complete line of nationally advertised products. You can have many of these new products in your home with no money down and three years to pay.

With our two yards and thirty-two years of service to the community we welcome the opportunity to assist you in any of your building problems, large or small.

Very truly yours,
Charles H. Stuart, Mgr.

P. S. Plan now to visit our new store and pick up a handy record book for your trip this summer.

MUCH EASIER FOR YOU
WHEN YOUR HOME HAS **R.O.W.** Removable WINDOWS

Start here!
for fuel savings... and begin with **BALSAM WOOL**
The Attic Insulation

Why? BECAUSE you can lift your windows out, and WASH BOTH SIDES INDOORS!

Think how much drudgery and time that will save you! Never again need you wash a window from outdoors—perched on a ladder, or sitting backwards on the ledge.

Come in and let us show you how to remove both sides of an R-O-W window—and WASH BOTH SIDES INDOORS.

USE YOUR ATTIC
Add extra room to your home at low cost with a **PRECISION Folding Stairway**

NEW 9-FOOT STRAND GARAGE DOOR
Nine-foot width makes it easier to get the new cars in and out. Rugged, all-steel, one-piece, welded construction with new X-type steel bracing assures lifetime durability. Quicker to install. Galvanneal-zinc-coated for rust protection; oven-baked to provide a clinging base for paint, without prime coat.

IT'S RIGHT IN QUALITY—WEATHER-PROVEN
Dutch Boy HOUSE PAINT
Bright White self-cleaning Tints color-true, durable
"Dutch Boy" Paint brings out the beauty of your home—stays beautiful and protects for years. Your wisest buy—1 gallon covers 600 square feet. Wide range of handsome colors... ready-mixed and matchable. Come look over our color selection today!

the LOW COST WAY to build extra rooms from wasted space...
...in your basement
...your attic
...your porch
...anywhere in your home

CELOTEX
Insulating BUILDING BOARD
Is your budget limited? Then build that extra room you've wanted—with famous Celotex Insulating Building Board. Easily and quickly applied. Beautifully finished in White. Where Square Edge type is used, joints may be treated with hangers or moulting. Or use Beveled Interior Board with smart V-groove joint.

The insulating value means greater year-round comfort, with reduced fuel bills. Learn today how Celotex Insulating Building Board will provide added living space—on a thrifty budget!
