There's a Right Window for EVERY ROOM when you specify...

Fenestra

STEEL CASEMENTS

- For the living room, there is the picture window shown, with ventilating steel casements at each side. Here's an unhampered view of a pleasant landscape, architectural beauty, plus plenty of fresh air ventilation.
- For the kitchen, Fenestra windows over the kitchen sink provide extra working light (the slender frames allow larger glass areas). A finger's touch opens the windows to deflect the breezes into the kitchen.
- Fenestra steel casements are just right for the bedroom—swing leaves reach up to catch the breezes from any of three directions. You can get 100% opening for ventilation—more than twice the ventilating area provided by double hung windows in the same size window opening.

With all these advantages, Fenestra Steel Casements cost less to buy and install. Standardization streamlines production, simplifies installation. See your architect or builder, or phone

IS IT IS ??? -----

IS IT AINT? We dunno whether the weather's gonna be hot or cold — whether yer gonna wanna cook or loaf around in the yard — we dunno from nothin' — so guess we'll give yuh a little bit of cookin' stuff and some eatin' outside stuff and then we can settle down and go to work. The cookin' stuff should be first cause some of them eat real good cake — like them shank end of smoked hams fer 49c a lb. Yuh know a ham on rye with a cuppa coffee is a man's favorite sandwich. We got the coffee — Conroy's whole bean coffee fer 73c a lb. Then another sandwich that guys kinda go for is a corned beef job on pumpernickle bread. We've got a whole tub full of corned beef that's bin curing fer weeks so it should be good. If yuh want corned beef and cabbage for a hot meal the corned beef is just 69c a lb. Buy a big hunk, then yuh'll have some fer cold eatin'. Yuh might need a jar of kosher dill pickles and we got a large jar of Aunt Jane's kosher dills fer 39c. Suppose yuh'd like some kind of soap so we still got seeds of Super Suds around here — and we don't want so much so fer 19c a large box yuh really should oughtta take some out of here — doncha think?

Nels, our main butcher, sez to me this mornin' — quote "I wanna run ground beef in the ad and I want yuh to tell the people that this is really pure ground beef" — unquote — and he should know cause he's the guy what gits the beef ready fer the grinder. So now yuh've bin told and he sez he's gonna have 3 lbs. of it fer \$1.77. Course yuh'll have to have all the neighbors in to use up 3 lbs. If yuh jest want 1 lb. it'll cost yuh 65c. Yuh could make a big pot of chili when yuh can git the kidney beans 2 fer 25c — or maybe cook hamburgers outdoors. Fer them that would rather have hot dogs we got Grade I Mickleberry or Eckrich hot dogs fer 53c a lb. Yuh know if yuh bin readin' the papers that when it comes to buyin' hot dogs the grade on 'em is kinda important. Guess that's about all fer this week. Hope we got somethin' in here that sounds good to you — did we??
