The first marriage among their grandchildren is pretty exciting business for the Arthur Hockings of 19710 Middlebelt Road, but the wedding festivities were dimmed by sadness last week. The sandbox had ready for the little grandson expected from Hawaii for the wedding, festivities will not be as happy as from their daughter, Mrs. Dorothy Davis of Honolulu, last week took instead of their arrival time... the shocking news that the year-old boy had drowned. So Mr. and Mrs. Hocking made rapid arrangements for a flight to Honolulu, and they have just returned, not as happily as from their Christmas-time trip there.

Life will grow steadily brighter for them again, however, as June 14th approaches. That's when grandson Fred Grose, son of Fred Grose, Sr., of Tuck Road will marry Miss Delores Leflar. She is the daughter of Mr. and Mrs. Carl Leflar of 29337 Eldred Street and both Delores and Fred are students of Charleville High. Fred is a pre-med student at the University of Michigan, now completing his junior year.

Dr. Elsie Johns, who will perform the wedding ceremony at the Charleville Methodist Church, admits that this particular marriage is quite a thrill to her, for Delores and Fred were among the first young people of the church whom she baptized when she began her pastorage here several years ago. The Ladies Society of the church gave Delores a towel shower last week.

The tulip fields were beautiful at Holland, Michigan, Sunday, reports Mrs. Vera Hawley and Mrs. Richard Shukins of Middlebelt Road. They drove their children to witness the event and stopped at East Lansing on the way home to say "Hi" to Captain and Mrs. Lawrence Meahan and family. The Meahans were former neighbors of Eight Mile Road while he was here with the state police.

Their dreams about the Holland Festival had to be put away "til next year," say the Martin Ulrichs whose son Kurt has turned their 29204 Eight Mile Road home into a hospital again. "The red measles arrived just in time to cancel the trip."

"I can certainly tell whose son you are!" the doctor exclaimed as he took his first look at measles victim Gary Hasley of 29230 Scotland Street Monday. Gary's daddy, Lee Hasley, was a childhood patient of this doctor from his early infancy and home community and for a minute the doctor thought the calendar had been turned back.

The measles had subsided at our house, for the time being at least. Rosie the "Doll" had them right along with Miss Pigtails, of course, but she is still hospitalized. She has a very severe case of measles.

"Little Brother took over the job of feeding her and found that the little knives and forks, if urged, could slide right on through her mouth. Although our son is just-past-two, already we're thinking of the years ahead when he will turn runner, a neighborhood newspaper like both his daddy and mommy did during their child years. And later on we'll hope he wants to be a paper boy for his daddy, that one of the best ways for a boy to become a man of the world? Our paper boy, David Aho, son of Mr. and Mrs. William Aho of 20240, Hugh

The American Way

The words "Michigan" and "fishing" are practically synonymous at this time of the year. And after a day's fishing, it's the "American Way" to enjoy a glass of cool, refreshing Michigan brewed beer. For beer belongs... to pleasant living, to good fellowship, to sensible moderation. And our right to enjoy it, this too, belongs... to our own American heritage of personal freedom. *Beer Belongs... ALWAYS BE CAREFUL DRIVING

It gives this old familiar sign new meaning

White sidewalls optional at extra cost.

W **OULD** you be interested in getting one gallon free with each tankful of gasoline you buy?

Then we can tell you this: It will certainly be worth your while to read this brief story of Buick's new Airpower carburetor.

Truth is—a skillful driver can just about double the bonus we mention, if he makes the most of what this year's ROADMASTER has to offer.

The reason you can get such a bonus traces to a pair of simple facts:

(1) It's a mixture of gasoline and air that gives you power.

(2) Buick engineers have come up with a four-barrel automatic carburetor that lets you use more gallons of air per gallon of fuel.

Most of the time, only two of these barrels are needed—and they feed such a thrifty mixture that you use less gasoline at 40 mph than you'd formerly use at 30.

But—when you want a quick burst of eager power—you can double the air supply as well as the gasoline feed—and come up with the highest horsepower that Buick's Fireball 8 Engine ever delivered.

Of course, any man who's buying a car as fine as a ROADMASTER wants a lot more than extra miles from a tankful of gas.

He wants the distinction of extra room, extra comfort, richer fabrics and all the other refinements that make a car truly fine.

He wants to ride with solid security, confident poise and lordly silence. And, while he may not admit it, he yearns for a car that's full of fun.

All this, we promise you, and more will be yours when you take the responsive wheel of a ROADMASTER.

How about doing that—soon?
