pioneer in building roads for auto traffic. Many trunklines were built 20 to 30 years ago and, though they were brilliant examples to the rest of America then, they were not designed for today's transportation and require high, uneconomical maintenance expense. Many are being rebuilt to 1952 standards.

The steel strike may cause delay in some important projects.

But the big threat as Ziegler sees it, is cutting gas tax revenues. "Construction programs in the counties, cities and incorporated villages have also been expanded because of these increased revenues," he emphasizes, "and they'll be cut if gasoline taxes should be lowered."

The legislature can override a Governor's veto; they can't override a Constitutional amendment.

So Ziegler is hoping that all future signs saying "Men Working" will refer only to highway construction crews and not to circulators of petitions that he fears will take such signs off Michigan trunklines.

Charles Meeking, editor of The Canberra Times of Australia, is sitting in on the Democratic national convention this week.

During a stop-over at Lansing, he paid a visiting-fremat call on your reporter. Because an impartial observer can see many things that we Americans may overlook in the heat of our own political convictions, it was natural that he be asked for his views on the coming campaign.

"I am surprised at the complacency of so many people I've talked to about charges of corruption in the administration," he observes. "I've talked to so many many people who just shrug and say, 'Oh, well. We know the boys in Washington all got their share."

What can you expect?"

That makes him wonder just how effective the Republican campaign will be if General Ike pitches it on an anti-corruption level. Mocking is a veteran political observer. Of the GOP convention which he viewed on TV and the current Democratic one he's seen from the pressbox at the amphitheater, he says, "They make me feel right at home."

He was press secretary to Premier Menzies during the latter's successful fight to get into the American and Australian politics, he opines, are basically alike. The outward form may differ, but that's all.

Two things impressed him in America where he's travelling under State Department auspices, "I was surprised at how hard you work here. People don't work as hard or as efficiently in Australia. Hence production is low and prices high."

"I was also surprised at all the 'free labor' here. Back home everything is unionized almost 100%."

Australia needs Americans for a shot in the arm. Meeking invites you to come to his country to live and work. Just say "Charley sent me."

Fresh peas should be cooked rapidly and until just tender so they keep their fresh green color and stay sweet, advise Michigan State College home economists.

It saves your strength - and it might save your life

CAN you imagine parking a car as easily as you steer it on a straightaway?

You twirl the steering wheel with one hand—turn the front wheels until you get the last inch of advantage from Buick's short "turning radius"—spot the car in a tight spot at the curb—or swing out when the car parked in front of you seems impossibly close.

For this alone a lot of people—women especially—are saying that Buick's Power Steering is the biggest advance since Dynaflow Drive.*

But you're going to find out something more as you pile up the miles.

You're going to feel the same confident and thrilling sense of command you have always

felt in a Buick, because Power Steering only goes into action when extra effort is needed to turn the wheels.

You're going to find that your front wheels track just as they always have—that they automatically swing back on course, after you've made a turn, when you ease your grip on the steering wheel.

You're also going to find that Power Steering takes over when your front wheels hit loose dirt or sand—road irregularities and chuckholes—and smooths down their jerk or tug on the wheel in your hands.

All this adds to the ease and pleasure of driving. But it adds to the safety, too, because, in the rare event of a blowout, Power Steering helps you keep control. There's no sudden and

violent jerk ever when this helping hand's on the job.

Add to this the level-gated serenity of Buick's Million Dollar Ride—the "rarin' to go" exuberance of its Fireball 8 Engine—the spread-out room, the luxurious fabrics—the way this great performer can turn up its nose at gas stations—and there's only one smart thing for you to do:

Drop in—or pick up your phone—and arrange to give this marvel a tryout. Even the price says, Better buy Buick now.

Equipment, accessories, trim and models are subject to change without notice. *Standard on Roadmaster, optional at extra cost on other Series. †Now available on Super as well as Roadmaster—optional at extra cost.
