submit explanations as to the how and where these bones came from.

Having been found in the rear of the church should lend a great deal toward the solution. I wonder what the explanations would be were they unearthed in the rear of a bar.

The thought occurs to me that a decided method in which the solution could be resolved would be to place them in a case in the Plymouth Historical Society Building and proclaim this to the general public. (Do not lock the case - ready access should be available to the contents by interested persons.

Food Industry Can Run Itself

EDITOR:

We see in the news media's advertising and promotion of the meat boycott the same offensive harangue and ob- structionism we witnessed in the advertising and selling of "anti-war peace activism."

Many of us reject the news media's over-simplistic so- lution of problems that more and more totalitarian dicta- torship is necessary to solve people problems. The current

campaign against the food industry will only lead to government regulation of de- mand (ration books) and na- tionalization of the industry.

If we heed the advice and follow the leadership of the editors, we will all be shop- ping at the state store with ration books; and that, I sub- mit, is much worse than shopping at the company store with a credit card.

Lauds Jaycees For Jelly Sales

EDITOR:

I want to thank the Livonia Jaycees for the splendid job they did recently selling jelly mugs to raise money for the handicapped in our city.

The money they raised will go a long way toward helping the students that are attend- ing Cooper Annex. It will help to furnish new equip- ment and needed tools for these special children.

I am sure that the board of education as a whole is grateful for the gesture made by the Livonia Jaycees. How- ever, I wanted to personally thank them as an individual.

The Jaycees are a fine as- set to our city and we should all be proud of the work they are doing.
