THEY'RE HERE AGIN--

And we aint seen one yet. Course you know we're talkin' about them silly jelly birds that leave their eggs layin' around every year about this time. We have some of them jelly bird eggs and some marshmallow eggs and rabbits jest in case yer fixin' up a basket fer someone. Kind of like to remind you to order yer Easter ham too—if yer gonna have ham. When we start talkin' about Easter that makes us think Spring is almost here. We feel like it is calse we've got our seed rack up and we got a brand new one this year that is really snazzy. Also—there is still some of that grass seed left if yer lawn is cryin' fer a little fixin' up. It's only \$1.89 fer 5 lbs, so the price is right and right now is the time to git it sowed. Right now is also the time that the jams and jellies that were made last year are about gone so we figgered maybe you'd like to git a few jars. We got some tumblers of Aunt Janes strawberry and some raspherry preserves fer 25c each. Yuh kndw strawberry jam and hot biscuits is mighty good and yuh git a large box of Bisquick fer jest 49c. Don't fergit yer Vlasic butter fer 69c to go with them biscuits. If I made the biscuits I'd have to have somethin' to dunk 'em in so we could soften 'em up so I'd be interested in gettin' a lb. of Hills coffee fer 79c. Are you?

On the list from the meat guys looks to me like they're havin' a 49c sale. First off they have some boneless veal rolls fer 49c alb. This is solid meat with no fat so if yer a veal eater veal see you down here. Wow — how corny can we get? Then there's some blade out bot roats of beef from U. S. graded choice beef fer 49c a lb. too. In the pork department is some pork butts fer 49c a lb. and some of our own fresh pork sausage. You know if yuh aint tried dur sausage fer 49c a lb. yer due fer a surprise cause when yuh fry this yuh really have some meat left to eat — it aint all grease. Then we have some fresh spare ribs ordered and if we git 'eni they'll be 49c a lb. too. Doncha think that's a pretty good variety fer jest 49c a lb.?
