32% Jump in Volume
Makes Price Cut Possible!

DETROIT In announcing lower truck and car prices, L. L. Collier, president of Chrysler Corporation (holders of Dodge Trucks) said:
"Since the first of this year Chrysler Corporation has built out more automobiles and trucks than we were able to turn out. With the spring selling season just getting under way, our dealers are now selling a pace more than 50% ahead of last year.
We are very pleased that we can take this action so shortly after the new administration's prompt ending of price controls and reduction to the automotive industry freedom to build the competitive cars for which models can be obtained in a few days.
Now lower prices indicate Chrysler Corporation's confidence in the future of the Dodge line of trucks and cars.
Now that higher volume is being achieved and we may successfully proceed it to continue, we are lowering prices."
