From where I sit... by Joe Marsh

Chip Pulls a "Pip"

Chip Hanson is a clever commercial artist. Beside doing cartoons on our paper, he picks up "free lance" drawing jobs.

Right now he's whipping up posters for the Safety Campaign. They all have headlines like "FLAY IT SAFE!", or, "A LIVE WIRE CAN START A FIRE!"

Chip looked a bit keeplish yesterday. Didn't want to tell me why. Finally he blurted out, "I feel like a dope. Here I am on this safety program and the fire inspectors tell me my own studio's a fire trap. I've been storing paint there for years."

Manistique). These men would face each other to see which would remain. Rep. Clarence F. Graebner and Thomas M. Burns, both Saginaw Republicans, also made the race for the one seat left to the city.

Wayne County would gain 11, from 27 to 38 representatives; Oakland and Macomb each gain one, raising their total to five and three. Other counties having more than one representative are: Kent 5; Genesee 4; Igham 3; Warren, Calhoun, Jackson, Kalamazoo, Saginaw, Muskegon and Washtenaw, two each.

Total new number of representatives is 110; of senators, 34, increased from 32.

Six urban cougles can control the house with 58 votes! They are Wayne, Oakland, Macomb, Kent, Washtenaw and Genesee. Wayne, alone, with its 38 votes, could prevent immediate effect of any measure, since a two-thirds vote of the new chamber would be 74. Rural lawmakers could stop immediate effect but not prevent passage of a bill.

No tax decision during this session is the guess of some legislators. Further, there is a growing suspicion that Governor Williams' corporate income tax bill is being pushed hard by Walter L. Hill (D-Muskegon) may slip into law if the Republicans can't get together on a tax program. And so far they haven't. If the legislature should fail to come up with a solution, Governor Williams would then be forced to call them back for special session. It is then that his bill might become law. There are indications, say observers, now that legislation is over, that the house will pass both the corporate income tax and House Leader Wade Van Valkenberg's (R-Kalamazoo) business profits tax. The senate faced with both of these measures, can then make the decision to accept the Democratic or Republican sponsored bill. If senators cannot agree, the special session may come about.

Michigan has more railroads than any of 11 leading foreign countries. Figures show that 6,954 miles of railroads in the state keep 38,900 workmen busy earning \$124 million. Taxes paid by the state's railroads contribute more to education than any other state industry — enough into the state's primary school fund each year to equal the cost of a year for 117,234 of the state's children.

Horsepower in the form of electricity is now doing the job that mulepower once did in coal mines, and doing it with greater ease and safety.
