Who likes to cook during hot summer weather?

I don't imagine there are many ladies that like cooking on a hot summer day. But I can show you plenty of homemakers who find summer cooking easier and much more pleasant since they started using an automatic gas range. And, they learned about the advantages of a modern gas range the same way you are right now.

They read all about the new easier, faster cooking features such as spacious ovens, smokeless broiling, accurate top burner controls, convenient electric outlets, smart styling, and easy-to-clean porcelain finishes. But what really sold them was the automatic clock controls that enabled them to bake and roast complete dinners automatically. They could relax or take it easy while cooking chores were taken care of with hardly any work at all.

Why don't you stop in at your gas range dealers store and see these new gas ranges. You'll be amazed when you learn how easy it is to own and enjoy one in your home. Get the facts! Don't wait. See them today.

Your Gas Appliance Dealer...

will be glad to show you these new automatic ranges. They cost less to buy, less to use, and less to install than any other automatic range on the market today.

MSC's TV Station On The Air In '54

WKAR-TV, Michigan State College's television station, is scheduled to be on the air with regular programs early in 1954, college officials have announced.

The station will operate on ultra-high frequency channel 60 with an approximate 85-mile fringe area of reception, according to W. H. Tomlinson, director of research and promotion of the Michigan State College television development program.

About three months will be required for erection of the 1,000-foot transmitter tower, on top of which will be placed a 34-foot television antenna. Following erection of the building and tower and installation of equipment, WKAR-TV's test pattern is scheduled to go on the air in November or December.

CIRCUS ACTS WILL REPLACE RODEO AT MICHIGAN FAIR

The Cavalcade of Thrills — a giant program of circus acts — will replace the traditional rodeo as the major grandstand entertainment at this year's Michigan State Fair, September 3 through 13.

As usual there will be an auto thrill show before the grandstand and this year it will be the Congress of Canadian Daredevils appearing in Michigan for the first time. Featured will be the shooting of a convertible automobile from a cannon.

Also before the grandstand will be 250 mile stock car race and, of course, there will be a mammoth display of fireworks. The Canadian Daredevils will begin the ten day grandstand entertainment with matinee and evening performances on the first two days of the State Fair, September 4 and 5.

Then for seven afternoons and evenings, September 6 through 12, the Cavalcade of Thrills will present a great outdoor circus show including such outstanding performances as the Zacheins Human Cannonball act; Terrell Jacob's Jungle beasts; the Great Telesco, swap hole artist; Ullaine Meloy; high trapeze; two elephant acts; the Juggling Jewels; Florida, a pedestal unicycle act; Nelson's trained pigs and many other sensational acts.

Climaxing the grandstand program will be the 250 mile stock car race on Sunday afternoon, September 13.

Helping Hands Hamper Fawn's Friendly Frolic

A wildlife tragedy occurred in the state park at East Tawas recently.

A month-old fawn wandered into the park one day, apparently having lost the security of nearby forest lands. Campers and children chased the young deer, hoping to return it to the wilds. But during the chase the animal was struck by a car and one leg was broken.

The local conservation officer was called to dispose of the fawn.
