

## 'Deer Dope Sheet' Available October 1

Another "Deer Dope Sheet" is in preparation at the same division in Lansing, and will be available upon request about October 1, the conservation department reports.

Unlike past years, however, the four pages will this year be packed with information regarding only the 1952 seasons. In past years, the dope sheets carried information of several years. The change this year is based on 1952 being the first year to see a large-scale use of the "any deer" management principle in Michigan.

Post card poll data from the archery, firearm and special seasons will be included in the sheet.

## THE MICHIGAN MIRROR

By GENE ALLEMAN

bothered to fill the present unclassified openings. Of 174 jobs, only 33 were filled.

"Race, color or creed" are not taken into consideration — we are only interested in ability."

Employees like Civil Service too, the director indicated. "This system guarantees an employee certain prescribed rights and frees him from worry about losing his job for political reasons," said Mr. Rasch. He also said that his department works with representatives of employee organizations as well as managerial groups. "We meet with people from the

CIO, the AFL, United Public Workers and the Michigan State Employees Association," he stated. "And we invite them in to discuss with proposed rule changes. We feel these groups have contributed to make toward a more smoothly running administration," the director concluded.

Most common complaint against Civil Service is that workers under its protection become so independent that they lose the desire to do a good job. Civil Service disagrees with this thinking. The director points to the 1952 record which shows that 369 employees were dismissed. A fired employee can appeal his case and possibly win reinstatement. But of the dismissed groups, only 22 appealed; only six were reinstated.

Director Rasch realizes that the concept of civil service tends to be controversial but feels much of the criticism stems from misunderstanding.

"Unfair treatment by state employees need not be tolerated by the public," he insisted. "A citizen has a Constitutional right to file complaints any time he is dissatisfied with a state employee," he continued. "We at the Commission recommend that complaints be registered with department heads but if satisfaction is not forthcoming, we are glad to investigate."

Constant research is carried on at the commission. It covers such subjects as salary levels, test valuation and new methods of administration.

At present an effort to develop better tests for personality traits is under way. Civil Service figures show that dismissal in 75 per cent of the cases is due to inability of an employee to adjust to the personality requirements of a job rather than inability to perform. The department also maintains a large staff to study and prepare training programs.

Four commissioners, who serve without salary, head Civil Service. Two are Democrats, one is a Republican and one an independent. The Constitution provides that no more than two members from any one political party may serve at any one time. Present members are Lester S. Moll and Sarah Robinson of Detroit; Milton Mueller, Lansing; and James M. Josses, Marshall.

## State Surveyor Finds Father's Blazing Mark

While surveying near Charles Lake in Baraga County recently, Louis F. Smith, conservation department lands examiner in the upper peninsula, found a blaze mark made by his father half a century ago.

Smith said the blaze mark, located in the corner of a section he was checking, read "F. Smith, August 11, 1903." He said the last numeral was very faint and may have been a "2", but that the remainder of the blaze was readable.

The elder Smith had been a timber cruiser for an early logging company.

## Enters School

A/Sc FLOYD W. HOPKINS

Airman Third Class Floyd W. Hopkins, son of Mr. and Mrs. Arthur Hopkins of 22225 Scott, has entered the aircraft mechanics school at Sheppard Air Force Base, Texas, the home of the largest technical school of this type in the world.

During his specialized training as a student at Sheppard, he will receive intensive training designed to provide him with the thorough knowledge and basic skills required in servicing, inspecting and maintaining aircraft currently used by the United States Air Force.

Upon graduation he will be awarded the rating of airplane and engine mechanic. Along with the majority of graduates in his class, he will enter a course for advanced training or will be assigned to one of the major Air Force commands for on-the-job experience.

Airman Hopkins attended Clarencville High School prior to his enlistment in the Air Force on March 24, 1952.

## Looking Ahead By DR. GEORGE S. BENSON

(Continued from Page Two)

confirmed this fact. So has Herbert Philbrick, a loyal, courageous American citizen who served as an FBI counterspy in the Communist underground in Boston. He said several preachers belonged to his underground Red cell.

"These individuals," he told a Congressional committee, "were all Communists prior to their becoming ministers. I actually sat in at a cell meeting at the home of (name given) . . . one of the heads of the Communist Party . . . and a member of our cell was a young Communist about to be planted in a seminary to study to be a minister and infiltrate into the religious field . . . that was one of (our) main projects."

This unchallenged evidence doesn't detract from the fact that the Church is the one great force that ultimately must spell the doom of Communism and that the vast majority of American clergymen are diligently working toward that end.

Miss Beverly Bollinger of Mayfield Avenue is the guest of relatives in Adrian.

## POLICE CHIEF WARNS DRIVERS ABOUT SPEED

Michigan's No. 1 traffic killer — too much speed, continues to be the subject of emphasis by the law enforcement agencies throughout the state, according to Chief Joseph G. DeVriendt.

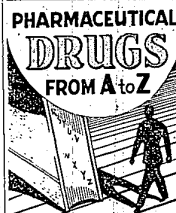

As the program enters its sixth week more and more drivers who fail to cooperate with the safety program are discovering "that there is a speed law in Michigan," and that the police are apprehending traffic violators who exceed the posted speed limits or drive too fast for conditions.

Chief DeVriendt cautioned all motorists to watch out for the illusion which takes place when a motorist traveling at highway speed reaches the edge of a city or town. "It doesn't take very many miles at highway speed for a motorist to become 'velocitated,'" he said. "This means that a driver slows to 40 miles per hour but feels like he has slowed to 25. Then when entering a built up area it is an especially good time to take another look at the speedometer," he said.

Check-Your-Speed, the safety tip posted on signboards, is a part of the state-wide program sponsored by the State Safety Commission and the Michigan Association of Chiefs of Police. "Motorists are cooperating on the program," the Chief said. "It is only a small minority that fail to obey the law and make it necessary for our officers to check their speed for them," the Chief concluded.

## GUEST PREACHER

Rev. Milton Huber will be guest preacher of the First Methodist Church of Farmington on August 9, 1952. Mr. Jerry Domes, a member of the local congregation, will conduct the worship service and introduce the speaker.
