

## Final Township Registration Date Set For Friday

Office To Remain Open Until 8 p.m. September 4

A light registration is being predicted by township officials with the deadline for the special hunting ban election set for this Friday evening, September 4.

Township Clerk Harry McCracken stated Monday that approximately 21 new registrations have been taken since the last election. The registration prior to the special no hunting election is of the large number of qualified electors now the books. Only persons not already registered in the township need to register prior to the September 4 deadline.

REGISTRATIONS will be taken Thursday from 9:00 a.m. to 4:00 p.m. at the Township Office in the Town Hall. On Friday, the final day, registrations will be taken from 8:00 a.m. to 8:00 p.m. at the Township Office. Persons must be registered in order to vote in the special hunting ban election on October 5.

Voters will determine at the special election whether the township is to be closed to hunting with firearms. A majority vote will be required for passage of the legislation. The special election is being called in accordance with a bill recently passed by the State Legislature.

## WENDELL BROWN TO HEAD HOSPITAL DRIVE COMMITTEE

Wendell Brown, 29521 Ardmore Drive, has been named chairman of the Friends and Benefactors Committee of the new hospital building fund for the Farmington area, officials announced this week.

This brings to five the number of appointments made thus far. A meeting of all local committee chairmen will be held this Thursday at Madonna College, Schoolcraft and Levan Roads, in Livonia. The purpose of the meeting is to brief the various chairmen on their respective duties and to complete the organization of the campaign. Committee chairmen are being appointed in all five communities included in the hospital building fund drive. The communities include: Farmington, Livonia, Plymouth, Northville and Redford. Purpose of the organization is to raise funds for the construction of a 120-bed general hospital to serve the five communities.

## Alta Loma Sewer Project Approved

The city received authorization this week from the State Water Resources Commission for the construction of a 21-inch relief sewer plan on Alta Loma Street.

Plans for the construction were approved by the City Council at a survey meeting at the city hall. Before actual bids could be secured the project had to be approved by the state. The Water Resources Commission must authorize the construction because of a sewerage expansion control imposed on the city by the state.

The city engineer is now drafting final plans and specifications for the construction of the 21-inch sewer. It is expected that bids on the project will be opened in October and that work will start early in November. The sewer is to be constructed along Alta Loma Street and will provide drainage for the southwestern section of the city. The sewer will tie into the regular system at Farmington Road and Orchard Street.

## State Continues Survey Of Cut-Off

Land survey work in connection with the development of the Grand River Cut-Off around Farmington is continuing, officials of the State Highway Department reported this week.

Last Friday surveyors were laying lines on the east end of the Cut-Off near Parker Street. The survey began at the western junction of the Cut-Off near 10 Mile Road. It is expected that the survey work will take several more weeks to complete.

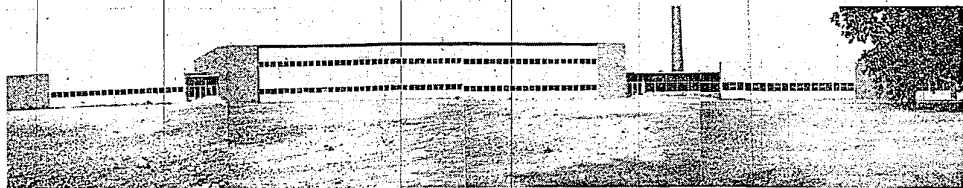

No further information is available on the details of the proposed highway development. Preliminary plans have been drafted for the section from the west end of the Cut-Off to Farmington Road. However, officials stated that these plans have not been formally approved as yet.

Under the proposal a new double lane will be constructed approximately 140 feet south of the present road to handle east-bound traffic. The existing road will become the west-bound lane. A green belt will exist between the two strips of pavement. No definite proposal has been released regarding the type of construction of the new road or the intersection of Farmington Road or at the east end of the Cut-Off.

Plans for a new limited access highway between the west end of the Cut-Off and Kent Lake have already been approved.

# SCHOOLS PREDICT RECORD OPENING DAY ENROLLMENT

## New 22 Classroom Farmington High School Building To Open Next Thursday

Next Thursday morning, Farmington students will move into one of the newest and most modern high schools in this section of the state.

Finishing work on the new Farmington High School building is being completed this week and moving operations will continue right to the opening of classes on September 10. Large quantities of new equipment are being delivered to the school each day and installation is being rushed in preparation for the opening.

The new 22 classroom building is located on Shawwassee Street between Prospect and Lakeway. It will provide modern facilities for the entire high school enrollment. Junior high school students will occupy the former high school building on Thomas Street. The present gymnasium and athletic field facilities will be used

by both the junior and senior high school as in past years.

In addition to regular classrooms, the new high school provides a beautiful library, cafeteria and kitchen, homemaking rooms and industrial shop, vocal and instrumental music rooms, science laboratories and administrative offices. The building is constructed so that an auditorium, gymnasium and athletic field can be added on later. The main lobby, pictured on the right, is constructed of brick and wood paneling with attractive display cases. Public telephones are also provided in a short hallway leading off from the lobby.

All of the rooms are decorated in bright colors utilizing a maximum of natural light. Modern lockers are installed along the wide corridors and plenty of storage space is provided in all of

the rooms. Comfortable chairs are available in the library for easy reading and tables are provided for reference work. The modern cafeteria will accommodate approximately 200 students with sufficient kitchen facilities to adequately take care of the hot lunch program. The homemaking rooms include kitchen equipment as well as simulated housekeeping rooms. Industrial shop facilities include drafting, woodwork, metalwork and auto mechanics.

The vocal and instrumental music rooms are built in steps to provide better group instruction. Private practice rooms have also been provided for individual study. New equipment has also been installed in the various science laboratories at the school.

Plans are now being made for a public showing of the new building shortly after school opens.

That was the deadline for the 1953 city taxes and according to Kathryn Carter, Treasurer, it was a mighty busy day. A total of 91% of the 1953 taxes were collected prior to the deadline. Mrs. Carter stated. This represents \$57,809 of the total \$63,816 tax issue.

At this time a week ago only about 70% of the taxes had been paid. Thus in the past week a total of 21% of the taxes were collected. Mrs. Carter added that most of this total was processed on the final day, August 31.

Taxes paid between September 1 and October 31 will be subject to a 2% penalty. Taxes paid between November 1 and February 28, 1954, will be penalized at the rate of 4%. After February 28 city taxes must be paid at the Oakland County Treasurer's office in Pontiac.

Plans are being completed this week at the Farmington and Clarencville Schools for the expansion of the hot lunch program. Farmington will add hot lunch in the elementary grades for the first time this year. The program will actually start on Monday, September 14, at all elementary schools except Noble, James Road, Assistant Superintendent. He stated that the program will be extended to Noble if the demand is sufficient. Milk will continue to be served at the Noble School.

The hot lunch program will begin on Thursday, September 10, at the Farmington Junior High School and continue throughout the year. The meals will be served in the cafeteria located in the new gymnasium building. The new cafeteria in the high school addition will allow the serving of hot lunches in the upper grades for the first time in the history of the School District.

Only milk will be provided on Thursday and Friday at schools in the Clarencville School District with the hot lunch program beginning on Monday. The new cafeteria in the high school addition will allow the serving of hot lunches in the upper grades for the first time in the history of the School District.

## Students Return To Classrooms September 10

Officials of both the Farmington and Clarencville School Districts are winding up final preparations this week in anticipation of record opening day enrollments on Thursday, September 10.

Farmington Superintendent O. E. Dunkel stated Monday that approximately 2,000 students are expected to be enrolled in the elementary grades and 1,000 in the junior and senior high school. This represents about 250 more students than were enrolled in the District at the opening of school last year. Clarencville enrollment is expected to hit 1,875 with 1,200 in the elementary grades

and 675 in the junior - senior high school. This represents an increase of approximately 10% over last year's opening day enrollment.

BOTH DISTRICTS are finishing up the largest combined school building program in the history of the area. Farmington's new high school building will provide 22 new classrooms in the District. The Clarencville High School addition will furnish homemaking rooms, industrial shop, cafeteria, study hall and teachers' rooms. The new Botsford Elementary School will add 13 classrooms. The Westwood Elementary School is expected to open in October with seven more classrooms.

With the increase in enrollment and additional classrooms, both school districts have added (Continued on Page Six)

## City Tax Returns Asked To Curb Use Of Water

Voluntary restraint on the use of water by city residents is being urged by officials this week in an effort to protect the heavily taxed supply.

Persons are being requested to refrain from washing cars or watering lawns and gardens from 3:30 p.m. until 9:00 p.m. James Tennant, City Manager, stated that the program of conservation is being conducted on a voluntary basis. It is not expected that actual controls will have to be imposed as long as residents cooperate.

Tennant stated that the watering ban in the City Park was not filled until the situation eased. The City Manager added that a good rain will restore the supply to normal. Tennant stated that the major problem is to maintain pressure in the lines, although the level of the wells is down also.

PLANS are now being made to drill test wells on the city-owned property at the corner of Oakland and Gill Roads.

James Tennant, City Manager, will attend the third city convention. More than 500 municipal officials are expected to participate in the meetings.

## Board Initiates Action To Finish Botsford School

Pass Motion Setting Up Arbitration Committee

The Clarencville School Board, in executive session Thursday evening, approved a resolution proposing an arbitration agreement with Thomas - Wilson Company in regard to the cost of repairs at the Botsford School.

The action was taken in an effort to speed up the completion of the new Botsford Elementary School. The question on the cost of repairs has arisen as a result of moisture in the building. As a result of this condition some repairs to the interior of the building are necessary.

According to the resolution, a committee of three arbitrators is to be set up, one to be appointed by Thomas - Wilson, one by the School Board and one by the two selected arbitrators. The cost of the arbitration agreement is to be borne by the School Board and Thomas - Wilson. The two arbitrators selected by the Board and the arbitrator selected by the School Board shall inspect the building before repairs begin and (Continued on Page Six)

## Two Injured In Auto Accident At Orchard Lake And 10 Mile Roads

Royal Oak Minister Seriously Hurt When Car Plows Into Utility Pole Following Collision

Two persons were injured, one person was arrested for travel over 75 miles per hour in a 35 mile zone, and the other was killed. Merle George of 29800 Orchard Lake Road received injuries to both feet and Rev. Milo P. Cross of 751 Hendrie Boulevard in Redford received injuries to his chest.

According to the Farmington Police report the car on Orchard Lake Road when it was struck on the left side by the car operated by Rev. Cross.

POLICE SAID the clergyman was traveling east on West Ten Mile Road and failed to stop for Orchard Lake Road.

After striking George's vehicle, the car driven by Rev. Cross struck a utility pole at the northwest corner of the intersection.

Farmington Ambulance removed the injured to Redford Receiving Hospital at approximately 11:05 p.m.

Farmington City police arrested Patrick A. O'Neill of 15405 Linwood in Detroit on Saturday at 3:25 a.m. for driving under the influence of liquor. O'Neill was later found guilty, forced to serve a 30-day sentence and (Continued on Page Six)

## City Tax Returns Hit Record \$57,869

All's well that ends well, and things ended very well at the office of the City Treasurer on Monday.

That was the deadline for the 1953 city taxes and according to Kathryn Carter, Treasurer, it was a mighty busy day. A total of 91% of the 1953 taxes were collected prior to the deadline. Mrs. Carter stated. This represents \$57,809 of the total \$63,816 tax issue.

At this time a week ago only about 70% of the taxes had been paid. Thus in the past week a total of 21% of the taxes were collected. Mrs. Carter added that most of this total was processed on the final day, August 31.

Taxes paid between September 1 and October 31 will be subject to a 2% penalty. Taxes paid between November 1 and February 28, 1954, will be penalized at the rate of 4%. After February 28 city taxes must be paid at the Oakland County Treasurer's office in Pontiac.

Plans are being completed this week at the Farmington and Clarencville Schools for the expansion of the hot lunch program. ## Set For September 11

## Garden Club Prepares For Record Entries In Annual Flower Show

Entry books for the Farmington Garden Club Flower Show will be closed at 11:00 a.m. on Friday, September 11, at the Methodist Church to allow time for placing the entries and final clean-up before the arrival of the judges, states Mrs. George Nahstoll, Flower Show Chairman.

In order to be sure of placing exhibits in the show, all exhibitors should plan on arriving at the show between 10:15 a.m. and 11:00 a.m. The annual show will be held September 11 from 2:00 to 9:00 p.m. in the Methodist Church auditorium.

Mrs. Fred Harrison, chairman of entries, will be ready with her committee to receive entries by 8:30 a.m. and they do not want to have to turn away any exhibitor because he failed to arrive before 11:00 a.m.

Mrs. Harrison has also stressed that her committee will be on hand to make entries at the church the night before the show from 7:30 to 9:30 p.m. and to help in the smooth running of the show if all Garden Club members will go to the church at that time and get entry tags for their arrangements and, if possible, place stands, neighbors in position, ready for the show.

Arrangements of dried materials could be placed at that time also. In emphasizing the need to obtain entry tags the night before the show, Mrs. Dan Guy, chairman, pointed out that her

committee is responsible for providing space for all arrangements, entries, so if unplanned-for entries arrive at the last minute or planned-for entries fail to arrive, it can be a most embarrassing condition. According to standard Flower Show competition rules, an arrangement is not supposed to be touched by anyone after the arranger has placed it, since the relation of the arrangement to the exhibitor's space is judged for or against the arranger.

Mrs. David Krings, Horticulture Chairman, urges the general public to bring choice blooms or house plants, fruits or vegetables to the show. After a summer's hard work in the garden, it is fun to share pride in the fruits of those labors with one's friends and neighbors.

The Flower Show Committee will attempt this year to eliminate the entry confusion by having a classification table set up outside the church for horticulture entries and by having three sets of entry books, one for flowers and house plants, one for fruits and vegetables, and one for arrangements.

Spring-flowering bulbs will be offered for sale at the show with Mrs. J. M. Cunningham in charge of the sale. Profits will be used for the continuation of the Town Hall beautification project of the Garden Club.

## ST. PAUL'S SCHOOL TO OPEN CLASSES SEPTEMBER 10

Classes at St. Paul's Lutheran School, 20815 Middlebelt Road, will open Thursday, September 10, at 8:30 a.m. with a special service by Rev. W. Rutkowski, superintendent.

Registration will be held on September 9 from 9:00 a.m. to 12:00 noon and from 7:00 to 8:00 p.m. One extra classroom has been added to the St. Paul Lutheran School, providing a total of three rooms for the current school year. Mrs. Ernest Winter will teach the primary grades; Mr. Harold Kenow will handle the middle grades; and Mr. Ernest Winter will be the upper grades instructor.

Kenow has been assigned to the St. Paul Lutheran School, by the placement committee of Concordia College, River Forest, Illinois, where he graduated. Mrs. Winter has been contracted to serve for one year.

The school will sponsor a hot lunch program with government aid as in the past.

Only milk will be provided on Thursday and Friday at schools in the Clarencville School District with the hot lunch program beginning on Monday. The new cafeteria in the high school addition will allow the serving of hot lunches in the upper grades for the first time in the history of the School District.

## D.P.W. Keeps Eye On Water Pumps

Floyd Sallow, superintendent of the City Public Works Department, is keeping a close eye on the water situation as the hot, dry weather continues to put a heavy strain on the system. Here, Sallow is checking the water level in one of the city's water pumps. Officials have urged all citizens to cooperate in the conservation of water in order to insure sufficient pressure. At the present time pumping facilities are operating at top capacity to serve the city.

## AROUND THE BLOCK

THE SEASONS . . . are giving up mighty hard this year. Here it is fall according to the calendar, but you would never recognize it from the stuff the weather-eman is dishing out. Unless our memory fails us, spring put up the same kind of a fight earlier this year. She just wouldn't give in to summer and now summer is going to even it out. The weather-eman is dishing out the same old stuff, but it's just plain summer and that's all there is to it. We don't mind a little summer in the right places, but this is supposed to be fall, so please, Mr. Weatherman, turn off the burners, will you?

SEVERAL PLACES . . . in this week's issue we have attempted to call your attention to the fact that this Friday, September 5, at 8:00 p.m., is the deadline on registration for the special Farmington Township hunting ban election. So even if he accused of repetition, we are sure that there are quite a few persons around who don't have their names on the dotted line. So let's take care of it before 8:00 p.m. Friday, and be a full time citizen of your community and your country.

IT'S A SMALL WORLD . . . Dan Burnett can testify. Dan just happened to take in a movie the other night called "Never Let Me Go" and he about fell out of his seat when scenes from Meville's Cornwall England began to appear on the screen. The reason, that's the town where brother Bill was born. It was the same streets, the same houses. Dan could hardly wait to see the end of the movie so he could get home and tell Bill about it. Now Bill can hardly wait, but he won't have long because the picture is coming to the Civic Theatre on Sunday, and unless we miss our guess, Bill will be right there when the cameras start rolling.

TAKE WARNING . . . this week end, it's the last big outdoor holiday of the 1953 year and nearly every brother's son will be out on the highways and by-ways. Unless the experts are way off on their predictions, and we sincerely hope they are, a lot of Michelanders won't live to see another 8 and a lot more will see it from a hospital bed. Don't let it happen to you! If you must get out of your back yard, start early, drive carefully and get back safely. Don't try and save minutes. It may cost you months flat on your back. Don't try and gamble with traffic laws unless you are prepared to gamble your Hipp and your liver. Drive your loved ones. Remember . . . IT CAN HAPPEN TO YOU!
