

# Medical Course Offers Rewards

Madonna College in Livonia has issued information concerning the field of medical technology, which, say college officials, offers many rewards to those seeking a profession that offers a good future.

The college grants a Bachelor of Science degree to students who complete the four-year program in Medical Technology.

The first three years are spent in the college. Students pursue the required chemistry and biology courses in addition to the general liberal arts courses.

Chemistry requirements for medical technologists include general chemistry, organic chemistry, quantitative analysis, organic chemistry and biochemistry. A specified number of courses must also be taken in biology from among the following: general biology, comparative anatomy, bacteriology, histology, genetics, embryology, parasitology and human physiology.

Students acquire valuable experience in the biology and chemistry laboratories at the college. Both laboratories are well equipped with modern apparatus.

The student's fourth year is spent interning at an approved hospital laboratory. Upon satisfactory completion of this year the student graduates from Madonna College with a B.S. degree. She will qualify as a Registered Medical Technologist after passing a state examination in the field.

Madonna College thus prepares students to become the pathologist's fact-finders — the main task of a medical technologist. Some of the general duties in a hospital laboratory include chemical and bacteriological tests and analyses of blood, skin, sputum, as well as making serologic and cardiographic examinations, and preparing sections of tissues for microscopic studies.

Registration for the fall term will be held September 14. For information, interested persons may write to the Registrar, Madonna College, 26508 Schoolcraft, Livonia, or call Plymouth 425.

**Mrs. Hattie Brust**  
Mrs. Hattie Brust, of 29355 Hagel Street in Livonia, passed away suddenly Wednesday morning, August 26, at the Detroit Osteopathic Hospital.

Mrs. Brust was born December 7, 1890, in Winona, Mo., the daughter of James and Flora Cook Parley. She was united in marriage on July 24, 1911, to Vincent Brust in Lincoln, Illinois.

Mrs. Brust had lived in Livonia for the past ten years, commuting here from Grand Haven, Mich.

Funeral services were held on Saturday at 2:00 p.m. from the Thayer Funeral Home with Rev. Carl H. Schultz officiating and burial took place at Glen Eden Memorial Cemetery.

Surviving besides her husband are three daughters, Mrs. Jessie Wyrick of West Olive, Michigan, Mrs. Viva Phillips of Grand Haven, Michigan, and Mrs. June Noll of Richmond, California; and one son, Joy Brust of Livonia.

She also leaves five brothers and five sisters and ten grandchildren.

**Emma Marie Pike**  
Mrs. Pike passed away August 27, 1953, in a Pontiac Hospital following an illness of several months.

She was born January 13, 1868, in White Lake Township, Michigan, the daughter of Chauncey and Mary (Flak) Boice and had resided, until two years ago, for twenty-eight years at 23026 Maple Avenue.

Her husband, Lewis Romayne Pike, preceded her in death on March 19, 1952.

She leaves two sisters, Mrs. Elmer Farrell of Milford and Mrs. Bird Cooley of Clarkson, and several nieces and nephews.

Funeral services were held from the Spencer J. Heene Funeral Home at 2:00 p.m. Saturday with Rev. Gordon Northrop of the Farmington Baptist Church officiating.

Interment was in Franklin Cemetery, Franklin, Michigan.

**Joseph L. Blatt**  
Mr. Joseph L. Blatt of 24895 Springbrook Drive, passed away in St. Joseph Mercy Hospital August 29, 1953, following an illness of two weeks.

He was born in East Brady, Pennsylvania, May 31, 1872, the son of Valentine and Elizabeth Blatt.

He leaves two daughters, Mrs. Harry E. Rudy of Farmington, with whom he had made his home, and Mrs. Frank C. Crane of Cleveland, Ohio; four grandchildren; three great grandchildren; one sister, Miss Celia Blatt; and two brothers, George and John Blatt, all of East Brady, Pennsylvania.

Funeral services were held from the Spencer J. Heene Funeral Home at 1:00 p.m. Monday with Rev. Carl Schultz of the Salem Evangelical and Reformed Church officiating.

Interment was in White Chapel Memorial Cemetery, Birmingham.

**MSC Professor's Book Called 'Landmark'**  
A book by a Michigan State College professor, which traces conservative thinking from Burke to Santayana has been hailed by American reviewers as "a landmark."

Author of the important new work is Russell Kirk, a native of Plymouth, Michigan, and assistant professor of the history of civilization at MSC.

Of "The Conservative Mind," published this summer, Fortune magazine said it is "a landmark." It has appeared at a moment when a kind of political and social conservatism is re-emerging in the U. S.

Drive thy business; let not that drive thee.

# THE MICHIGAN MIRROR

(Continued from Page Two)  
Administrators' Association, and Louis J. Berman, vice-president of the Michigan Press Association. They decided that a joint meeting of school administrators and editors might create better understanding between the two groups. Such a session was arranged by Mr. Berman with the aid of the Michigan Press Association and Michigan school men. It was held in January, 1952, at Grand Rapids. Several hundred educators and editors were on hand.

So enthusiastic was the reception by both groups, and so great were the results that Dr. Francis Chase, of the Midwest Research Center of the University of Chicago, a Kellogg Foundation-supported research group, suggested that still greater benefits might come about if the two associations would unite in an investigation to discover these two points.

1. How people get information on schools.  
2. What part newspapers play in supplying this information.

"Answers to these questions in education will probably be applicable to other fields," stated Dr. Chase.

Vital efforts will be felt by all agencies dealing with the public if results from this study bring even one half the potential visualized by those working in it.

The survey has been given an imposing title: Michigan Educational Communications Study. Prof. Earl McIntyre, assistant head of the Journalism Department at Michigan State College, is coordinator. He is assisted by a board of daily and weekly newspapermen, some leading high school super-

intendents, several department heads at MSC and Dr. Chase.

Dire need to impress the public of facts vital to society is realized by educators who watch the skyrocketing birthrate. They know provisions must be made now if tomorrow's school children are to receive sound educations. School men know the public must realize the urgency of this problem if money is to be voted for more schools.

John A. Hannah, president of Michigan State College, foresees two million more residents in Michigan by 1970. Best available figures show that 1952's college enrollment of 24,000 will more than double in the next 17 years.

"Ten million dollars a year should be spent on a building program starting now," says President Hannah, "rather than letting the problem magnify through delay."

If solutions can be found to the educator's problem through the efforts of the Michigan Educational Communications Study, then those who look for big things to result in the world of public administration will not be disappointed.

**Looking Ahead**  
By DR. GEORGE S. BENSON

(Continued from Page Two)  
sides against slums, race prejudice, anti-Semitism, etc., (2) that family stability is not affected by an increase in social acceptance of divorce; (3) that educational practices and principles which involve discipline or drill, and the teaching of traditional beliefs about the government, the family or the economic system are inefficient and harmful.

Concerning the present form of American society, one textbook states: "This explosive conception of democracy is not calculated to appeal to even the most socially advanced members of the proletarian class. It certainly does not appeal to that rapidly growing group of men and women in our society who prefer to abolish invidious class lines both in society and in government and to substitute therefor a composite ideal of public and individual welfare. This is the ideal of social democracy." This is the propaganda of the Left! Its presence in American textbooks should be disturbing to teachers and parents alike.

# New Housing, Television To Greet MSC Students

New courses and new housing, live television and a full program of extra-curricular activities await new and returning Michigan State College students this fall.

An estimated 15,000 students are expected to register September 21-25 for the 1953 fall term, according to Robert S. Linton, MSC registrar. This will be an increase of approximately eight percent over the 1952 figure of 14,085.

New housing for both married and unmarried students will be ready for occupancy in the fall as a result of MSC planning to meet the pressing needs this year and the future of a growing enrollment.

The first of three scheduled men's dormitories, each housing 450 students, will be ready in the fall. Three 12-unit apartment buildings for married students are scheduled for occupancy later in the year.

Nichigan State's new television station, WKAR-TV, is scheduled to be on the air early in 1954 following installation of its transmitter and completion of its tower. At the present time, WKAR-TV is recording on film an average of two shows a day. Ten courses will be offered this fall in the areas of television production and engineering.

# MICHIGAN TO REPLANT 12 ACRE AREA LEFT BARREN FROM LUMBERING DAYS

Fall planting at the Kingston Plains area, 25 miles north of Shingleton, in the upper peninsula, will get under way soon in the conservation department's continuing program of cover development.

The 12 square miles were left barren during early lumbering days and never recovered with second growth trees.

The department's program includes reforestation work on four square miles under direction of the forestry division, and game and cover planting work on another four square miles under direction of the game division. A central section is being left untouched as a control plot.

The game area is being planted to attract deer and sharp-tailed grouse; biologists from the department's nearby Cusino experiment station will check to see if wild life prefer some open plots mixed in with their food and cover.

Whether the animals prefer the denser area presently being reforested.

# Plan Improvements For Ski Tourney

The fifth annual Michigan Open Ski Jump championships will be held at the Briar Hill Ski club at Mesick on February 5. It has been announced by William Baker, managing supervisor of the area.

Members of the Briar Hill Ski club, under direction of Supervisor Baker and Floyd Johnson of Detroit, will gather at the area September 12 and 13 to work on an improvement program, with changes in the ski jump one of the major projects.
