

## 'NUTTING' MAY OFFER MORE FRUITFUL REWARD

The ancient and honorable woodland sport of "nutting" may now pay fruitful rewards in more ways than one, the conservation department notes.

This being the season when woodland visitors like to gather the tasty kernels of hickories, walnuts and other tree types, it can also be the time to capture prizes in the annual cash award contest being sponsored by the Michigan Nut Growers Association.

The MNGA wants top seedling nuts of black walnut, hardy English walnut and hickory types and is willing to pay for them. Three prizes will be awarded for each of the three types.

Entry blanks and rules of the competition may be obtained by writing Dr. James Moulton, the Horticulture Building, Michigan State College, East Lansing.

Two children of Mr. and Mrs. Kenneth Owen of Seven Mile Road were reported on the sick list part of this week.

## OAKLAND COUNTY BLOOD DONORS BREAK MAY 1953 RECORD IN SEPTEMBER

An all-time record of 2,438 pints of blood flowed from the veins of Oakland County donors into well-known American Red Cross "blood bottles" in September.

And blood program leaders of Oakland County Chapter credited the General Motors Blood Bank project at Pontiac Motor Division with 1,999 pints of the record-shattering total.

Former record of 1,966 pints was set in May, 1953. Other outstanding months were January and February of 1952, with 1,429 and 1,211 pints respectively.

St. Joseph Mercy Hospital called on the Red Cross for 103 pints of blood in September; and Pontiac General received 55. Local patients in hospitals in areas outside Oakland County took another 128 pints, with the other county hospitals averaging about nine pints each.

Remainder of the blood was used by the armed forces or for making gamma globulin, useful in

minimizing the paralysis of polio, and for serum albumen, used for treating shock, and other purposes.
