Women Learn About Car's Mysteries

If a recent survey by the Automotive Information Council is any indication, the day may be coming when the lady of the house knows as much about what makes the family car tick as her husband does.

The AIC survey shows that thou-

sands of women across the country are flocking to the classroom and even the grease pit.

They're donning coveralls (at least in some classrooms, where they are provided free) and taking a cool, calculating look at that erstwhile

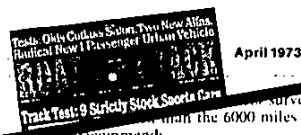

CAR CLASSES FOR WOMEN are offered to help them understand how to maintain a car for safety and trouble-free performance. Response has been terrific, sponsors report, with many classes enrolling two and three times the number of students expected.

Here's What

magazine

Says About Bob Dusseau's
SERVICE

Dealership service may play a part in this. A full 25% of the dealers rated "poor," only 5% improvement over the Mustang owners' experience. The only dealers held in lower regard among the 21 models we have surveyed are British Leyland, Fiat and Chevrolet. On the other end of the scale, 15% were given the rating of "excellent" and another 36% "good." Six dealers were brought to our attention as being outstanding: Rush Lincoln-Mercury, Columbus, Ohio; Bert Springs Lincoln-Mercury, Severna Park, Md.; Bob Dusseau Lincoln-Mercury, Farmington, Mich.; Southwest Lincoln-Mercury, Houston.
