You have to give the right kind of care to the new man-made fibers and finis in order to get good service, point out clothing specialists at MSC. So make it a habit to look for the label and to ask for washing or cleaning instructions before buying.

IT'S A FACT!

MODERN Gas CLOTHES DRYERS ARE MORE SANITARY FOR DRYING CLOTHES THAN SUNLIGHT AND IDEAL CONDITIONS OUTDOORS!

Despite the belief that sunlight is the most sanitary method of drying clothes, today's modern Gas Dryers maintain temperatures high enough to kill common germs and sanitize your clothes more effectively than sunlight.

And they dry your clothes clean, fluffy and fresh smelling too! Save your clothes—save yourself—with a modern dryer.

INSTITUTE PREDICTS MORE FATALITIES FOR YULE SEASON

You are 22 per cent more likely to be injured in an auto accident during the ten-day period from December 24 through January 3 than at any other season of the year.

This figure is given by the Institute for Safer Living, which predicts more than 1150 fatalities resulting from Christmas holiday season driving. This is 200 more auto deaths than during the eight-day holiday period last year.

Principal factors responsible for this seasonal increase will be bad weather conditions in many areas, increased holiday travel, increased social activity and generally poor visibility. The two long holiday week ends will again increase driving exposure this year according to the Institute.

To be sure that you are not counted among this year's crop of Christmas fatalities, Don't...

1. ... drive any more than is necessary.
2. ... drive on long trips if a train or bus or other transportation is convenient.
3. ... drive home from parties after drinking.
4. ... drive without lights when visibility is poor.
5. drive without chains when roads are icy or slippery.
6. ... allow younger drivers to use the family car unless you are certain that they are responsible and experienced enough to meet the season's increased hazards.
