THE MICHIGAN MIRROR

By GENE ALLEMAN

(Continued from Page 2A)
state. Muller Bros. invested \$600,000 in an operation to make plastic pipe at Port Huron. Michigan Tool bought Manistee Iron Works to produce gears. Standard Cotton Products is spending half a million near Flint for a new plant. White Products plans a quarter million dollar addition at Middleville.

"About 80% of Michigan's growth is from 'within,'" says John Boukema, former secretary of the Muskegon Chamber of Commerce and an authority of industrial expansion. This is considered a healthy situation, but the movement of plants outside Michigan into the state is not to be overlooked.

Data from the Michigan Department of Economic Development last 20 firms which moved into the state during 1953. They are: American Bitumals and Asphalt, Howell; Bliss and Laughlin, Macomb; CBS-Hytrom, a division of Columbia Broadcasting System, making television tubes, Kalamazoo; Clinton Machine, Clinton; Quodon Co., Chelsea; Gunn Co., Grand Rapids; Photographic Industries, Harbor Springs; Truck Equipment, Norway; Stream Eze Tackle Co., Charlevoix; Alma Plastics, Alma; Dog Life Corp., Hamlet; American Colortype, Decatur; Frankfort Manufacturing, Frankfort; Negaunee Needlecraft Co., Negaunee; Bryan Manufacturing, Reading; Toss Prieters and Binders, Stevensville; Jolly Kids Togs, Onaway; Superior Plating, Howell; General Electric, Holland; Bridgeport Press, Adrian.

Industrial expansion in Michigan is expected to be greater in Michigan than in any other state during 1954.

Since 1951 Michigan has ranked high. In that year only two states saw more money for new industry: Ohio and Pennsylvania. Those two states and Illinois exceeded the \$600 million spent in Michigan in 1952. In 1953 Michigan was second only to Ohio.

Michigan continues to gain while other states expect an average of 15% less capital for expansion during 1954.

To the "average" citizen, all this invested money means opportunity. Opportunity for new jobs, for bigger purchasing power, for a higher standard of living. A new factory in a community means a new source of taxes for the local government where it is

located, and for the state. Added income from taxes paid by large industries in small communities has the advantage of reducing the amount each individual must pay. It supplies a source of money that can be used for local improvements.

The sizeable capital investment made recently in Michigan makes it possible for a resident to watch first hand the working of the American economic system -- and to share in its benefits.

E. John Staley Enrolls At Anderson College

Second semester enrollment at Anderson College, Anderson, Ind., includes E. John Staley, son of Mr. and Mrs. Elmer J. Staley of 2941 Northbrook.

Mr. Staley is a freshman majoring in physical education.

Anderson College this year is experiencing its highest all time student enrollment of over 1050.

All actual heroes are essential men, and all men possible heroes.

THREE FARMINGTON AREA STUDENTS GET U-M DEGREES

The mailman will be bringing diplomas soon to the 940 University of Michigan graduates who completed requirements for degrees at the end of the fall semester in February.

Among those who will receive degrees are Sister Anne Joseph Ealen, 27400 Twelve Mile Road, Master of Social Work; Sister Anna Flynn, 27400 Twelve Mile Road, Master of Social Work; and John Leidy, 28595 Orchard Lake Road, Bachelor of Arts.

The diplomas are being hand lettered and will go into the mail as soon as possible. Secretary Herbert G. Watkins reports. The February total brings the number of graduates thus far in the 1953-54 school year to 1,929 since there were 989 graduates at the end of the summer session.

All of the University's 15 schools and colleges granted degrees. The School of Graduate Studies topped the list with 444 degrees. Next was the College of Literature, Science and the Arts with 137 and the College of Engineering ranked third with 120.

Hoyt Shancour Back From Korean Service

Marine Sgt. Hoyt C. Shancour of Farmington has returned home after a year of service in Korea. Most of Shancour's time overseas was spent as a wireman and radio man on the line with the Third Battalion of the Seventh Marine Regiment.

Shancour served in the major engagements of last March and July.

The address of the unit is: Communications Section, 7th Marines, 31 MM, Third Bn, Seventh Marine Regiment, First Marine Division, FPO San Francisco, California.

The larger the income, the harder it is to live within it.

Looking Ahead

By DR. GEORGE S. BENSON

(Continued from Page 2A)
The framers of the U. S. Constitution. In creating our Republic, were aware that the states were creating the Federal government, not vice versa, and that the people were sovereign in those states.

No Republic like it has ever existed. It has permitted the flourishing of a democratic way of life -- but not a democracy a way of life with man's God-given rights protected by constitutional law, and with equality of opportunity and of franchise extended to all, majority and minority alike. It has given individuals the opportunity to dream, to produce, to create, to save and invest, and to worship God in their own way. Nowhere else on earth have all these blessings in combination been given a people to any such degree.

Seaman Ken Kemp With Task Force 12

The 43 ships of Task Force 12 gave residents of the San Francisco Bay area an impressive and spectacular view of U. S. Naval might upon their arrival February 20 for a three day stay.

Expected to enjoy rest and recreation in picturesque San Francisco was Kenneth A. Kemp, seaman, USN, son of Mr. and Mrs. K. G. Kemp of 21400 Power Road, aboard the light cruiser USS Manchester.

A unit of the First Fleet, Task Force 12 is conducting the largest Pacific Fleet Training Exercise since World War II. Included with the Task Force are 20 San Diego ships, 21 from Long Beach and two from Pearl Harbor. The Task Force includes cruisers, destroyers, carriers, submarines, amphibious and mine warfare vessels and supporting auxiliaries.

200-horsepower Performance and priced far below it

Illustrated is the stylish Buick Century "hardtop" model.

Come drive the CENTURY biggest horsepower bargain of 1954!

THE invitation you see headlined there calls for action -- and comparison.

For you have to see and drive the 200-horsepower CENTURY -- and check its local delivered price -- to know how it puts other automobiles in this Buick's dollar class on the spot.

Look for yourself -- and you'll see what we mean.

Look at styling, new-day features,

visibility, interior modernity, ride comfort, handling ease -- we believe you will find nothing on the automotive horizon to equal the CENTURY on all counts.

But what will prove to be the most eye-opening news of all is the power buy you make in this spectacular Buick.

When you compare -- when you check the facts -- you find that you are buying more horsepower per

dollar in a CENTURY than you get in any other standard-production American automobile, bar none.

And it is horsepower that gives you brilliant performance, greater economy, new safety -- for here you get the highest power-to-weight ratio in all Buick history.

Why not come in and see the whole story come alive when you take the wheel of a Buick CENTURY?

We know of no better way to prove to you that this gorgeous, glamorous sweep of automobile is the power buy of the year -- by far.
