Adams To Give Dramatic Reading

On Sunday, March 14, in the Farmington Universalist Church, Dr. Frank H. Adams will present a dramatic reading of the play "The Mob" by John Galsworthy. This is the second in a series of dramatic interpretations being given under the auspices of the Association of Universalist Women.

Galsworthy wrote "The Mob" at a time when war was being challenged as a means of gaining ends. The play presents extremes both of the brutal and the beautiful, and in his interpretation Dr. Adams will emphasize these contrasts by quoting the words of the principal characters in their most dramatic scenes.

The program begins at 7:30 p.m. with a brief recital by Evelyn Adams Costello, church organist. Tea will be served in Adams Hall following the program, and the public is cordially invited.

COUNTY HEALTH OFFICERS VISIT PUBLIC MARKETS

The chief source of food for the family is purchased at the nearby corner grocery or the neighborhood supermarket. There is no food establishment which affects more people than the grocery stores and meat markets. Your county sanitarian routinely visits such establishments.

With large volumes of food stuffs entering and leaving a grocery store weekly, good housekeeping is essential. It provides a general neat appearance, an orderly rotation of stock, and the best means of vermin control. Good housekeeping includes in addition to clean facilities, adequate storage, storage of all food stuffs light to twelve inches off the floor, and storage away from overhead waste pipe lines.

In the interest of providing consumers with a good quality food there should be sufficient refrigeration to provide for all dairy products, meats, fish, and frozen foods. Any person who purchases any of the above mentioned items should be sure that the refrigerator is not properly refrigerated can blame only himself should the food spoil or cause illness.

Your grocery's habits will determine to a considerable extent the quality of the food you buy. All meat sold over the counter in Oakland County has been checked for wholesomeness. However, dirty hands, meat slicers, meat grinders, refrigerators, knives, saws, cleavers, display cases, and meat blocks can readily contaminate the food. You can insist on wholesomeness since you are paying for it.

Not only should the interior be properly maintained, but the outside premises should be maintained in a clean and sanitary manner. Accumulations of trash and garbage and to draw rats and mice and vermin. Improperly stored garbage will provide a tempting meal for rodents and will serve as a breeding site for insects, particularly flies, the carrier of so many diseases. Your constructive comments will aid your grocer to provide you with the kind of establishment in which you desire to shop.

Writer Recaps Scout History

Girl Scout Troops in South Oakland County are celebrating the birthday of their organization with increasingly popular father-daughter banquets, programs and theatrical entertainments.

March 12 is the 42nd anniversary of the founding of the Girl Scout Organization in the United States. On that date, in 1912, Juliette Low organized a group of girls from Mrs. M. Pope's school in Savannah into a Girl Guide Group. Juliette Low had worked with the girl guides in England where she lived after her marriage in 1896. Training and inspiration came to her through Lord Baden-Powell, founder of the scouting movement for boys, and his sister, Agnes, who organized the first girl guides.

In memory of the founding of the Girl Scout organization, the Juliette Low World Friendship Fund was established twenty-five years ago. The purpose of the fund is to contribute toward world peace and goodwill. Leaders explain to the girls the worldwide sisterhood of scouting which enables young people to develop friendly, neighborly feelings for those from other countries.

Each troop prepares a special box in which the girls place their contributions to the fund. The individual contributions are small, perhaps a penny or an inch for a waist measurement. Girls are asked to earn the money so that their contribution represents a personal effort toward world peace.

With the aid of this fund tomorrow's adults are learning international friendship by traveling in each other's countries and attending international camps together. Each year more girls go on exchange trips. Last year 48 senior age girls visited the United States. An international gathering for teen-agers is held annually by the Girl Scouts of the U. S. At Our Chalet, the world association center near Adolphod, Switzerland, Eight United States Girl Scout Troops traveled abroad last summer with the aid of the fund. Juliette Low dollars also sent United States girls to five international camps. Part of the fund provides for training executive personnel in countries where the scout movement is just starting. Koreans have been sent in an effort to re-establish scouting in their war-ravaged country. Can you imagine the pride a seven year old Brownie feels when she drops her contribution in the box to provide scouting for a girl in Korea or Israel?

The meeting will start at 8:00 p.m. at the Ten Mile School.

Southfield Church Launches Drive

A drive to get families to attend Sunday School and study the Bible is being conducted by the Southfield Community Presbyterian Church, 21122 Indian Road, according to the pastor, Rev. H. Raymond Bayne.

A dual emphasis is being made, including the importance of "Family Religion," with all members of the family attending the Bible School hour to study the Word of God together. The pastor emphasizes the importance of parents attending Bible School themselves, rather than just sending their children. The other emphasis is on the need of a knowledge of the Bible as the solution of the present problems of our generation.

Classes are held for all ages, with mothers in charge, and free. There is Nursery for infants with mothers in charge. And free transportation is available for those who need it by phoning Rlanders 1-9792.

The Southfield Church has entered the city-wide contest of the Andrew Jackson School Association. Their slogan is "Each One Bring One." Already an increase of 20 per cent or more over last year has been noted. Present attendance goal is 475.
