

CDA Schedules Nationwide Mock Atomic Attacks

"Operation Alert", a nationwide civil defense training exercise featuring mock atomic attacks on 42 selected critical target areas including Detroit and Flint, has been scheduled by the Federal Civil Defense Administration for June 14 and 15.

Designed to disclose weaknesses and improve efficiency of civil defense at all levels, the test will involve all 48 states, Hawaii, Puerto Rico, Alaska and ten provinces of Canada. For purposes of the test, it will be assumed that aircraft carrying atomic weapons will attack the continental United States and Alaska, and that guided missiles with atomic warheads will be launched from submarines on Hawaii and Puerto Rico.

Cooperating with FCDA in conducting the test will be the Department of Defense, Office of Defense Mobilization, Federal Communications Commission, and other agencies. The exercise will be the first in which all the states have participated simultaneously.

There is nothing like a spell of frosty Brazilian weather to whet one's appetite for a nice cup of tea.

COUNCIL PROCEEDINGS

A Special Meeting of the City Council of the City of Farmington was held April 12, 1954, for the purpose of considering the continued use as a two-family dwelling of the house located at 2300 Maple Street owned by Mr. and Mrs. George Emory. A legal description of this property, according to the last roll, is known as Lot 17 of Fred M. Warner's Grand River Avenue Subdivision.

Roll Call: Cavanaugh, Conroy, Loomis, Norrigan and Lindbergh. All present.

Mayor Loomis informed the Council and those present that the house was originally owned and occupied by Mr. and Mrs. Emory, a two-family dwelling prior to the effective date of the Zoning Ordinance and that the Emorys rented this property for one year approximately in 1942 and 1943, at which time they purchased it from the owner as a two-family dwelling. While the prospective purchaser was negotiating for this property, he desired some assurance that the present use would be permitted in as much as the income from the portion of the structure would directly influence the ability to purchase. It was also disclosed that about four years ago an addition was built under permit from the Building Inspector without any conditions. Examination of the Zoning Ordinance and the map of the zoning disclosed that the south line of demarcation of the commercial zoning along Grand River divides the lot in question almost diagonally from northwest to southeast. Due to this fact and the terms of the Zoning Ordinance which permit the use of said lot as either commercial or Residence A, the Government Body, acting in conjunction with the members of the Zoning Board of Appeals present, determined that no formal action was necessary.

A Mr. Newman and a Mr. Ingling requested clarification of the Zoning Ordinance as to its possible effect on the construction of a building to house an ornamental iron works on the east side of Orchard Lake Road between Astor and Shawansee. Examination of the Zoning Ordinance disclosed that while this project was not strictly permitted under the terms of the Ordinance, neither was it prohibited. This information provided the basis for the authority for the Building Inspector to issue a Building Permit on the property concerned for the use named with the instructions that a Certificate of Occupancy would not be issued until the following conditions had been met by the owner and/or occupant:

That the total rated horse power shall not exceed ten horse power and that all the necessary equipment must be installed at the expense of the owner and/or occupant to eliminate or prevent all nuisance conditions including interference to television and radio reception.

Motioned by Conroy and supported by Lindbergh that the meeting be adjourned. Motion carried, all yeas.

Meeting adjourned at 5:35 p.m.

James O. Tennant, Acting Deputy City Clerk.

Butter is just one of the many dairy products made from the "almost perfect food" — milk. It contains the fat and Vitamin A of milk and has some Vitamin D. Because it is a fat, it is a good energy food and USDA nutritionists say each person should have one pound of butter or other fat each week for a well balanced diet.

WEST POINT PARK NEWS

TELEPHONE-FARMINGTON 1461-M

By MISS L. A. AULT
