

List of Private Campsites Growing

With more than 51,000 campsites available, Michigan's camping industry is better prepared than ever to handle the annual summer rush to the state's forests, lakes and streams, according to Automobile Club of Michigan.

Although state park campsites have been increased by less than one per cent since last year, the number of private campground spaces, according to an Auto Club listing, has grown

by 19 per cent over 1972.

"Few, if any, campers should have problems finding space this summer," said Joseph Ratke, Auto Club touring manager. "Even if their favorite state park campground is filled to capacity, several private campgrounds with vacant spaces should be in close driving distance."

"This year the Auto Club's guide to private campgrounds lists 305 parcels in the Lower Peninsula and 35 in

the UP - as compared to 255 listed last year. The 305 private campgrounds offer a total of 23,987 campsites.

In comparison, Michigan's 70 state parks offer 14,827 sites. At state forests, 2,829 sites are available and at national forests, 1,788. City, township and county parks - often overlooked by the camping public - now have 8,383 sites.

One indicator of how the growth of

private parks has helped campers is the 29 per cent decrease in the number of turnaways at state parks last year as compared to 1971. Ratke added, "With only a slight increase in sites in 1972, state parks turned away 59,730 camping families while in 1971 the number was 84,258.

Most private campgrounds, unlike state parks, do take reservations. In its 1973 private campground guide, Auto Club shows the general location

of each park as well as a telephone number for making reservations. On summer holiday weekends especially, campers are advised to make advance arrangements before heading for a private campground.

The guide also details the wide variety of facilities that are available at private campgrounds. Accommodations range from minimal to deluxe.

Daily rates range from \$1.50 to

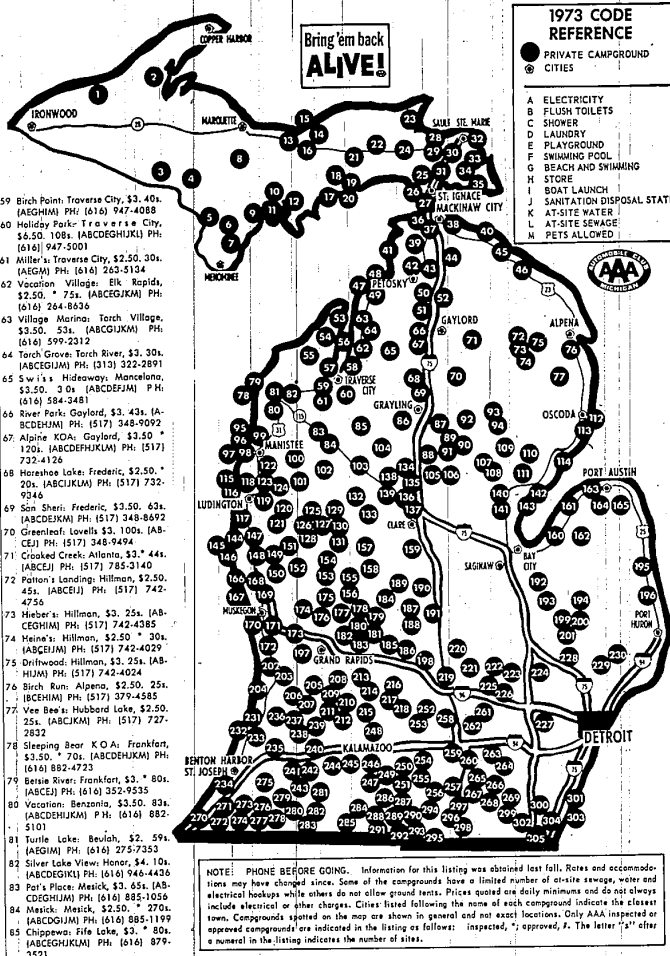

\$5.50. These are minimum fees and do not always include charges for electricity and other items.

Campers should have little trouble finding a space if they keep these tips in mind:

- If planning a stay at one of the more popular state parks during a warm weekend, arrive Friday before noon.
- The best time to get state park spaces for weekday stays is Sunday.
