Zoning Hearing

(Continued from Page One)

To the Zoning Board for recommendations.

Kelly stated that all persons affected by the proposed amendment are urged to attend the public hearing and express their opinions.

The chairman emphasized that comments presented by the citizens have a decided bearing on the recommendations made by the Zoning Board.

Action on the proposal was held up temporarily because of the submission of a second amendment. Kelly stated, however, that since the other proposal has not been submitted, the Board will proceed with the one amendment.

ANNUAL CENSUS BEGINS IN SCHOOL DISTRICTS

The annual census for the year 1954 is now under way throughout the Farmington and Clarenceville School Districts, officials announced on Monday.

A total of three census takers are working in the Farmington District with five covering the Clarenceville District.

According to law, the annual census must be taken each year during the last 20 days in May. Officials urged all residents to cooperate with the census takers, since the information is of vital concern in planning the physical, instructional and financial needs of the District.

It also serves as the legal basis for distribution of primary school interest and sales tax diversion funds.

U. OF M. HOSPITAL SET AS DEFENSE MEDICAL CENTER

In the event of atomic warfare and bombing of nearby industrial areas, Ann Arbor's University Hospital has been selected to become one of the state's principal medical centers, a university bulletin disclosed this week.

A joint plan has been worked out by Civil Defense officials and the hospital whereby emergency changes would be made to increase medical facilities, including the permitting the treatment and hospitalization of 6,000 casualties.

Dr. Roger B. Nelson, associate director of University Hospital and hospital coordinator for Civil Defense operations of all Washtenaw County hospitals, said:

"The first thing we would have to do at University Hospital is to move out about 90 per cent of our present patients to dormitory row until their families could come and transport them home."

The remaining 10 per cent of the hospital's patients are not capable of discharge under any circumstances, he declared.

University officials have approved emergency use of three dormitories which lie directly south of the hospital should the state undergo atomic incident.

Stockwell, Alvin Lloyd and Mosher and his family have a present total house capacity of 1,451.

"We have over 450 doctors on our staff," stated Dr. Nelson, "together with junior and senior medical students, the hospital could provide an emergency medical staff of over 800 doctors."

To meet the emergency nursing situation, University officials are planning on the 300 nurses now on duty, the 125 private registry nurses, and approximately 400 student nurses in the School of Nursing, making a total emergency nursing complement of over 800.

Dr. Nelson also declared that the duty might be doubled, even tripled in order to meet the needs of casualties.

Every car, every station wagon, every ambulance would be pressed into service, meaning that a lot of food would be choked with traffic exceeding that of an entire season of football Saturdays.

all the schools of the District, but it does mean that they will be excluded from all studies in the community who need them. Parent Teachers Associations, school administrative groups and educational organizations have endorsed the program.

A majority vote in the County School District as a whole is required for passage of both questions. Anyone may vote who is a qualified school elector in his local district, whether he is a property owner or not.

END MISSIONARY STUDIES

Dinner will consist of food from the different countries. A fine program is being planned.

The Livonia Health Guild members and guests visited the Clarenceville and Farmington Health Agencies on May 20. The Health Guild would be pleased by any public response in regard to these agency visits.

Both of the above agencies outlined by discussion and demonstration the methods used in aiding the once-believed "helpless" to regain a useful position in life.

A better understanding of the value of dollars contributed to the Torch Drive and why these dollars are as important to each segment of society was realized as a result of the visits.

The following members were escorted on the tour: Mrs. Ned Liggerton, Mrs. Lee Haase, Mrs. Carolyn Suraw, Mrs. H. C. Cushman, Mrs. Julia LaFayette, Mrs. Helen Statters, Mrs. James Lorch, Mrs. Anthony Schari, Mrs. J. Snelling, Mrs. R. Keany, Mrs. J. Marshall, Mrs. C. Fresholtz, Mrs. J. ished road could be completed by March 1, 1955. The possible addition of a single parking lane north of Shawassie on school property was also discussed. Tenants stated that he was sure the school would cooperate with the school in the drainage portion of the project.

Rev. Russell Lincoln appeared before the Board as an individual parent to protect the character education course being offered in the Farmington schools. Several other parents were also present at the meeting but did not participate. Rev. Lincoln read a prepared statement on the subject and submitted it to the Board. The paper included three United States Supreme Court rulings as well as a statement of the policy commission of the National Educational Association. WHAT TO EAT???

Is that a problem around your house these days? It sure draws a blank around here when customers ask us what should we have for supper? What with painting - cleaning - mowing the lawn and stuff like that there we don't get much farther than a bacon and tomato sandwich, but that ain't bad when it's made with our hickory smoked bacon what you can get some of for 89c a lb. Course you gotta have butter and coffee with it and Vaseline butter is 59c a lb. and Hills coffee is \$1.09 a lb. If you need a little sugar in yer coffee get 10 lbs. - that'll last a long time - and it's just 99c. If yer workin' real hard steak is more the stick-to-the-rib-type of food and there's U. S. choice round or sirloin for 79c a lb. Are you a middle of the afternoon coffee drinker? Like something on the side - like maybe a piece of cake? Well for a dollar you can get three packages of Pillsburys - yer choice of yellow, white, chocolate or spice - and if yer real busy we even have the frosting all mixed up in a jar. Course you do have to grease the pan with yer own lily white hands and this week end you can get 3 lbs. of Crisco
