

City Road Project

(Continued from Page One)
of regading and an application of dust layer. City officials stated that the leveling and grading will be done in the next few days, with the dust layer being applied as soon as weather permits.
The treatment of other residential streets in the city is expected to be completed in a few weeks. Officials stated that practically all of the treatment work has been finished for this year. The few remaining sections will be taken care of as quickly as possible.

Wild Rabbit Finds New Garden Home

A wild rabbit has decided to become domesticated and has chosen the Lester F. Lantz residence at 22184 Cuna for her new home, taking her nest in Mrs. Lantz's lower garden, the rabbit seems well pleased with her new home and is now rearing three or four young ones there. Pictured above Mrs. Lantz in her back yard lower garden where the rabbit, with her young, has taken up residence. Not at all shy, mother rabbit frequently ventures to the back porch in the background to wash herself and take a sun bath.

Did you know that nonfat dry milk solids are the least expensive and most concentrated food source of protein, calcium and riboflavin?

THIS IS TUESDAY:
And we gotta write you a brief note to letcha know we are still here even if our shelves do look pretty bare... but this afternoon we'll get 'em all filled up agin and be 'arin' to go. Course after havin' 'em all rest it's kinda tough to git back in the groove agin. Do you find it that way too? Didcha have a picnic or did some folks from the city drop out and eatcha outta everything? Maybe your shelves look kinda bare too so we got a few things that are sorta fill-ins — like Southern Star bonita whatcha can git 5 cans of fer \$1.00. To mix it up with you'll need some salad dressin' and fer Shedd's or Defiance it's 47c quart. If it's another picnic this week end maybe you'll fry hamburgers and our ground beef is 39c a lb. or 3 lbs. fer \$1.00. Then it's Defiance catsup what is 2 bottles fer 35c. Doncha gotta have that fer hamburgers? Course yuh gotta have somethin' to start fryin' 'em in so we got 3 lbs. of Crisco fer 89c. Now if yuh wanna bake a cake or pie we're gonna have 25 lb. bags of Gold Medal flour fer \$1.99. Then if yer a Pet milk user we got 2 cans of that fer 25c. Fer this week end, too, we'll have fresh dressed stewers, fryers, and caponettes. Chicken sounds kinda good right now - aint it? And if the strawberries are any good this week end we'll have them, too, and what goes better with chicken than strawberry shortcake unless it's corn on the cob?

Board Sets Date

(Continued from Page One)
Issue will amount to approximately six mills for a period of about 20 years. Schmidt stated that unless the additions are constructed and in operation early in the school year of 1955-56, half-day sessions will be necessary in the majority of the elementary grades. The board has filed a request with the Farmington Township Board for a traffic survey of conditions on St. Francis, Colwell and Robinson Streets in the township. The purpose of the survey would be to determine the type of control sign advisable. The board suggested that four-way stop signs be installed at the intersections of Emmett and St. Francis, Sedalia and St. Francis, and Junction and Robinson. They also recommended that three-way stop signs be erected at Emmett and Colwell and at Sedalia and Colwell. All of the areas are near school buildings.

Dedication of the Westbrook Elementary School has been postponed until October by action of the Board. It was originally scheduled for this month.

109 PRE-SCHOOL CHILDREN ENROLL AT CLARENCEVILLE

A total of 109 youngsters were enrolled in the pre-school registration held last week at the Edgewood, Bostford and Westbrook elementary schools. Clarenceville officials announced on Tuesday.
The registration was lighter than was anticipated based on the 1953 school census. Officials stated that this leaves many new youngsters to be enrolled in September.

Michigan Is Fortunate In Having An Abundance Of Natural Resources

God has been generous to Michigan.
A study of the state's natural resources shows that Michigan has ample reason to be thankful for its forests, its minerals, and its metals, and all other resources which have helped make Michigan one of the richest states in the Union.
Michigan began its climb to wealth through lumbering, and the lumber industry still contributes heavily to our welfare. Although since 1910 the state has ceased to rank first in the nation in lumber production, it still is a lumber leader among the Great Lakes states. Michigan also has the largest number of active saw mills and saws the greatest amount of lumber of any major industrial state.

A result of Michigan's eminence in lumbering is Michigan's paper and paperboard industry, which ranks second in the nation, and Grand Rapids' historic position as the national furniture capital.
Michigan's forests are being preserved as well or better than in any other state. Its 937,687 reforested acres lead all other states. At Higgins Lake is located the second largest tree nursery in the nation.
Under protection from fire in Michigan are 21 1/2 million acres of woodland — second in acreage only to Minnesota. Michigan also has one of the best low-loss records of any state, and in 1951 a new low record was set when 670 fires burned only 4,491 acres.

In mineral wealth Michigan occupies a fortunate position. Standing in the nation's top fourth of the states, as it does in manufacturing and agriculture, Michigan possesses huge stores of iron ore, electric salt brines, gypsum, limestone, and even some supplies of oil and gas.
Michigan is the nation's leading producer of salt, gypsum and magnesium compounds, and ranks second in the production of bromine, sand and gravel, and iron ore. Approximately 13 per cent of the national total of iron ore is mined in Upper Michigan, and it is estimated that high-grade ores in the region will last for at least 40 more years.

Michigan can also be proud of its copper production, which ranks sixth in the nation.
Thanks to the presence of large quantities of brine in Michigan, the state can manufacture a vast number of chemical products, and agricultural products. Among these products are pharmaceuticals, insecticides, fungicides, bleaches and cleaning agents, plastic bases, and scores of similar items. In all, more than a hundred chemical products and medicines are produced in Michigan.
Michigan supplies most of the limestone shipped out of the Great Lakes, and stands third in its production. Most of this limestone goes into flux for making steel, for the manufacture of alkali products such as soda ash and baking soda, and for use in road-making. High-calcium limestone, marl, clay and shale have placed Michigan fifth among the states in cement production.

Gypsum, of which Michigan produces the most in the country, is used in various building materials and as a Portland cement retarder. Michigan's second most important mineral resource is petroleum, which is produced in 36 of the state's 83 counties.

"The famed wheat-producing state of Kansas last year mined 1,350,000 tons of bituminous coal."

JAY HARRISON RE-JOINS CITY POLICE FORCE

Jay Harrison, former city police officer, re-joined the Department this week, James Tennant, City Manager, announced Tuesday.
Harrison left the Department in March to take a position with the Bloomfield Village Police Department. He is returning to Farmington as a patrolman. Harrison re-joined the force on Tuesday.
Robert Cox was also sworn in on Tuesday as relief patrolman. This will bring the personnel of the Department to full force.

Plan Pre-School

(Continued from Page One)
Donald, will be hostesses at the get-together.
The Ten "Mile" Elementary School will conduct its get-together on Wednesday, June 9, from 1:00 to 2:30 p.m. in the new kindergarten room. In addition to acquainting the youngsters with their school and teachers, they will have an opportunity to take the all-important bus ride. During the absence of the children, a program will be provided for the parents designed to create a better understanding of kindergarten philosophy and school policy. Mothers of the present kindergarten children, under the direction of Mrs. John Courville, Mrs. E. C. Copeman, Mrs. Werner Claus, Mrs. John Rosenberry and Mrs. Leonard Stidwell, will supervise the program and serve refreshments.

The final get-together will be held at the Bond School on Thursday, June 10, from 1:30 to 3:00 p.m. An orientation program will be conducted for the parents while the youngsters are visiting the kindergarten rooms in the Bond School and getting acquainted with the teachers. The children will be transported by school bus to the German School. The mothers of present kindergarten children will have charge of the program under the chairmanship of Mrs. Conrad Lam.

Planners Study

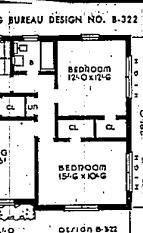

(Continued from Page One)
zoning map will be placed in various stores and business places throughout the city this week end. The four foot square maps will be located in the Farmington State Bank, Municipal Building and Nezheth's Confectionery Store. The maps are being displayed in an effort to stimulate interest in planning and to better acquaint the public with the proposed revised zoning ordinance.
The Commission is also expected to take further action on the recommended public relations program designed to stimulate interest in city planning. A special committee of the Commission has been set up to develop the program. The plan includes the display of hand use maps, explanation letters to citizens, a series of open meetings, and establishment of a speakers' bureau.

FLOWER SHOW

(Continued from Page One)
as a dramatic production. The curtain will go up at 2 p.m. and will close at 9 p.m. The Farmington Garden Club has received a number of top state awards for its outstanding flower shows.
Mrs. Arthur L. Schaldenbrand, production manager, has her hands full with this three-act production which includes the comedy and romance drama of "June Magic", "Country Cousins", and "Having a Wonderful Time", all depicted in flower arrangements.
More than 50 million tons of bituminous coal moved over the Great Lakes last year.

Plans are also being made to offer an instructional period in golf for the older boys and girls. Two meetings a week will be held at the Farmington Park for periods of one hour each. Meeting dates will be arranged to accommodate the largest number possible. The senior baseball program, which was started last year, will be continued with meetings scheduled two nights per week.

Storm Causes

(Continued from Page One)
with others down in scattered areas of the township, police reported. Several residents of the area also reported that considerable debris was blown into their yards during the storm.
No flooding to any great extent was reported anywhere in the area.

RAIN SLOWS FISHING

Clouds, rain and cool weather were included in the picture of field conditions for the opening week end of Michigan's trout and general game fishing seasons. All over the state, anglers were busy on trout and game fish waters, with many limit catches reported. General rains across the state opening morning slowed activities somewhat, but later in the day angling was again heavy.
