## Ever-Improving Star Cutter Cubs

Though not a championship team, the Star Cutter Cubs have played good ball in the Farmington Little League all season and have shown a marked improvement as play progressed during the summer. Pictured above, top row, (left to right) are: Brian Hug, Richard Wiley, John Nelson, Tim Curran, John Fleck, and Frank Clappison. Bottom row (left to right): Cameron Ault, Gerry Cousins, Ken Greeshover, Bill Truckner, Tom Wade and Darryl Allen. The team is coached by George Truckner, not pictured.

## Yanks Chalk Up First Win Of Year

The Farmington Dairy Yanks chalked up their first victory of the Little League season this year after dropping several games by close decisions in earlier play. A hard luck club from the opening of the 1954 season, the Yanks edged the up and coming Cubs on Monday of last week by a 3-2 margin.

A timely double by newcomer Wanke of the Yanks, playing his first game with the team, with the score knotted 2-2, pushed over the winning run.

The Yanks scored their first two runs in the contest in the opening inning when they capitalized on the wildness of starting Cub hurler Jon Nelson. The Cubs came back to tie the score in the second inning, with neither team making a bid to score again until Wanke came up with his two-base clout to score Larry Smith, who had walked.

Ken Greeshover, who replaced Nelson for the Cubs in the second, was charged with the loss. Julius Kovary, going the distance for the Yanks, gave up only four scattered hits and took credit for the Yankees' first victory.

Games scheduled between the Yanks and the Tigers on Friday and another Yank-Cub tussle on Saturday were called off due to the All-Star contests over the week end.

Nutritionists at MISC say that cantaloupes are a good source of vitamin C. And they also supply some vitamin A.

In 1953, the U. S. coal mining industry continued to pace all consumers of industrial explosives with 32% of the record total of 790,810,690 pounds used.

## PACING DERBY SET FOR FRIDAY NIGHT AT NORTHVILLE

Entering the final two weeks of its 39 night meeting, Northville Downs officials are busy making plans for the final two weeks of the season, the \$10,000 Michigan Pacing Derby, scheduled for Friday night, July 23.

Just as the Governor's Cup Trot attracted the best field in the state's history, the same is true of the Derby, according to Racing Secretary Johnnie Jenunie. Governor Williams, absent from the trot, will present the cup Friday night.

None of the 14 speedsters, nominated for the event last April, has been withdrawn, and Jenunie expects a field of 10 or more to face the starter.

H. D. Hanover, owned by Edgar Leonard, is the defending champion and is expected to be on hand although the big pacer has been ailing and may not be able to make the trip. Hanover equaled the track record of 2:02 2/5 a year ago in winning the first heat.

The early favorite, off his record in a recent victory in Chicago, will be Thomas Hat, Jr. Canadian pacer, who whipped a class field in the first time of 2:01 2/5 over a half-mile oval. Detroit enthusiasts are picking Bert Brennan's sensational Mighty Brewer as their choice. The five-year old black horse has won four in a row, defeating all of the best open class pacers on the grounds. He went to a season record of 2:04 2/5 a week ago and has an all-time record of 2:02 4/5.

Electric power utilities, largest consumers of bituminous coal, currently are maintaining an average stock supply of more than 100 days.

## Cards Nip Tigers For League Lead

The Hakestee Cards moved into undisputed first place in the Little League last week by defeating the Farmington State Bank Tigers 2-0 in a tight pitchers' duel. Prior to this contest the Tigers and Cards had been deadlocked in a tie for first place.

A pitchers' duel from start to finish, the game matched Card ace hurler Cliff Simmons against the Tiger sensation, Chuck Thomson, with Simmons getting the better support from his teammates.

The Cards scored their first run in the first inning when they combined a single with an error and a passed ball to score. Again in the fifth they took advantage of two Tiger errors following a scratch single to score their second run.

Simmons was nipped for five hits in going the route but with help from his teammates was able to leave all five potential runs stranded on the bases. Thomson, on the other hand, was given little assistance by his Tigers, and, though giving up only three hits, went down in defeat with a 2-0 shutout charged against him.

The Cards' star moundman, Chuck Thomson's first loss of the 1954 season.

Tiger games scheduled for Friday and Saturday were cancelled due to the All-Star contests.

## Fight To Finish In Babe Ruth League

Going into the final rounds of Babe Ruth League baseball play, three of the four teams in the loop are battling it out for first place honors. The three teams fighting for top honors are the Re-Nu Tool Red Sox, the Arrowsmith Indians and the Farmington Enterprise Giants.

The Red Sox are leading the pack with a record of seven wins against four losses, followed by the Indians with a 6-4 slat. The Enterprise Giants are hot on the tail of both clubs, having a record of seven victories against five setbacks.

Games this week will decide the victor. Season play will be concluded on Friday, July 30, in a contest between the Red Sox and the R. L. Polk Dodgers.

In action last Friday the Indians and the Dodgers 3-1.

With B. Utley turning in a stellar pitching performance in chalking up the victory. B. Hug for the Dodgers was the losing pitcher. On Saturday the Indians continued their winning ways by trouncing the Giants 8-1 in the opening contest of a twin bill. Andrews was the winning pitcher, with Chalmers suffering the loss.

The second game saw the cellar-dwelling Dodgers take a hard poke at the top place Red Sox to peak up a one-sided 10-2 victory. Piskons tossed his teammates to victory with Love absorbing the loss for the Sox.

Stimulated by their win over the Red Sox, the Dodgers went on along victory lane on Monday by slapping down the Giants 4-2. Hug went the distance on the mound for the Dodgers to take the win. R. Temple was charged with the loss.

## More Than 99% of the Bituminous Coal Produced in Indiana is Cut by Machine and Better Than 96% is Mechanically Loaded.

Stimulated by their win over the Red Sox, the Dodgers went on along victory lane on Monday by slapping down the Giants 4-2. Hug went the distance on the mound for the Dodgers to take the win. R. Temple was charged with the loss.

## ADVICE GIVEN ON ENTERING PHOTOS IN PARKS CONTEST

Advice to camera fans entering the Huron-Clinton Metropolitan Authority photo contest is given by Kenneth L. Hallenbeck, director. "Let your pictures show some distinctive feature of one of the Authority's five parks, wherever possible," he said. Such things as the boardwalk at Metropolitan Beach, the boat lagoon at Kensington Park, the Delphi rapids in Dexter-Huron Park or the surrounding inlets in Lower Huron Park will make it stand out from others.

Hallenbeck said that several photographers had entered color prints, although awards are offered only for color transparencies or slides. Four trophies and eight prizes of gift certificates will be awarded for black and white photos and color transparencies at the close of the contest on September 30. Pictures must have been taken in one of the five H-C-M-A parks. There is no entry fee and rules and maps are available free at camera shops and the H-C-M-A office, 1750 Guardian Building, Detroit 26.

## Nearly 200 Take Zoo Trip Friday

Almost 200 children and parents from the Farmington area took part in the recreation program field trip to the Detroit Zoo last Friday and toured the entire grounds. Feature attractions included a visit to the Ige Mend Theatre to watch the "Chimp" show and a ride on the train in the park.

The R. A. R. C. swimming program is reported to be continuing along smoothly with approximately 450 taking the trips to Kensington Park weekly.

The Farmington Park group will take its scheduled trip to the Seaside Creamery this Friday with the Noble and William Grace playground children visiting the Dairy Queen.

Director Warren Field reminds that each group will be limited to 60 children for both of these trips.

Golf is still being offered on Thursday afternoon.

## Babe Ruth And Little League Schedules

LITTLE LEAGUE

Thursday, July 22 - Cubs vs. Cardinals

Friday, July 23 - Tigers vs. Cards

Monday, July 26 - Cubs vs. Cards

Tuesday, July 27 - Yanks vs. Tigers

Thursday, July 29 - Cards vs. Cubs

Friday, July 30 - Tigers vs. Yanks

BABE RUTH LEAGUE

Friday, July 23 - Giants vs. Red Sox

Monday, July 26 - Dodgers vs. Indians

Wednesday, July 28 - Giants vs. Indians

Friday, July 30 - Red Sox vs. Dodgers

This week's schedule concludes regularly scheduled play in both leagues for the 1954 season.

## New Film On History, Problems Of State Deer Herd Now Available

After more than two years in the making, the conservation department has announced the release of "The Michigan Deer Story," its new color-sound film on one of the knottiest problems in state conservation work.

The film packs into 26 minutes the history of Michigan's deer work, the management procedures now being used and the hopes for the future of the state's whitetails.

Deer hunting is big business in Michigan. Sportsmen spend at least \$25 million on equipment, transportation, services and supplies for us in deer hunting in the state each year. The value of the meat alone derived from the herd is estimated at \$3 million.

A vast but intangible value comes from recreation obtained from hunting and from simply watching the animals.

The film traces the early growth, decline and subsequent modern development of Michigan's deer.

Few deer were available before the white man arrived; the virgin forests blocked out sunlight and cut off undergrowth that deer needed for food.

But when lumbermen arrived, they chopped vast holes in the forest and let sunlight reach the earth. The undergrowth built up and the herd began to grow.

Then wide-open market hunting and disastrous forest fires cut the herd until it reached an all-time low around 1900.

Protective laws brought the whitetail back, but then a new danger grew to menace the herd — there were so many deer that starvation began.

Conservationists realized that the best way to keep the herd large, healthy and useful to man — was to keep it in line with its food supplies.

As the rancher must keep his herd of cattle down to the size of available foods, so Michigan must keep its winter deer herd down to

the amount of winter food available, the film points out.

Thus, in 1952, an "any deer" season was authorized as the first step to hold the herd down to where it should be.

The film shows the need for such seasons, the way they operate and the general thinking behind deer herd management.

Schools, service groups, sportsmen's clubs and other organizations may obtain free loan copies of the film from the department's film loan service at Lansing 26.

More Than Smell May Be Contracted From Skunks

There is more than one good reason to avoid skunks while in Michigan's wilds this year, conservation department game workers point out.

A number have been found sick and dying in southern Michigan during recent months and biologists point out it is a good idea not to handle such animals.

Skunks are susceptible to rabies; four or five cases are found in Michigan each year.

Lah tests show none of the recent cases had rabies, though all were suffering from paralytic dis-

orders — symptoms similar to rabies.

A die-off hit the skunk population in the early '40's and dropped the hunting kill figure from about 44,000 in 1940 to 6,500 in 1947. Since then, the population has been coming back slowly and in 1953, hunters tagged about 9,000.

He that can have patience can have what he will.

## For More Fun In A Boat Use Common Sense-Afloat!

**KNOW YOUR BOAT**  
Every boat has its limitations. Learn what you can expect from your boat.

**BALANCE YOUR LOAD**  
Distribute weight evenly in the boat — from side to side and from bow to stern.

**WATCH THE WEATHER**  
Head for shore before a storm breaks. If caught out, seat position is on floor.

**KEEP LOW**  
And step in the center when boarding the boat or changing seats.

**HEAD INTO THE WAVES**  
If waves are high, head your boat on an angle towards the waves at slow speed.

**USE THE RIGHT MOTOR**  
Too much power can damage your boat — even swamp it. Look for the recommended horsepower rating.

**DON'T OVERLOAD**  
Seats do not indicate capacity. Two or three adults may be a full load under many conditions.

**AVOID SHARP TURNS**  
Fast, sharp turns are hard on equipment — and sometimes on people. Take it easy.

Follow the eight simple rules shown here for more safety and fun afloat this season, says the Outboard Boating Club of America, a national organization of outboard boat and motor owners. Boating is the safest of outdoor sports, says OBC, if you'll use common sense and courtesy.
