Varied Program
To Be Offered By
Farmington P.T.A.

The November meeting of the Farmington High School Parent Teachers Association will feature an open house, a talk on safe driving, and a special "do it yourself" craft exhibit. The meeting will be held Tuesday evening, November 16, at the new high school building.

Beginning at seven p.m. and lasting for an hour will be the high school open house. At that time parents will have the opportunity to visit with the teachers and see the school.

Mr. Robert Lewis, consultant in traffic safety, Automobile Club of Michigan, will discuss good driving, starting at 8 p.m. His theme will be "What Makes a Good Driver?" Because of his wide experience in safety and traffic problems, Mr. Lewis is very well qualified and always delights his audience with an interesting and helpful talk. There will also be a film on driving safety. Student drivers and parents of student drivers should find the program of interest.

A special "do it yourself" crafts exhibit has been planned by Mr. Roy Olson of the art department. This exhibit will show how original and attractive Christmas gift wrappings, ornaments, table centerpieces and gifts, as well as personalized Christmas cards, can be made at home. Students in the art department will demonstrate how this work is done. The exhibit will be on display during the evening.

Music for the evening will be furnished by the vocal department. Refreshments and a social period will follow the program.

The time and place, again, new high school, November 16, open house at 7:00 p.m. and program at 8:00 p.m.

The fact that some children cannot read simple words and sentences, yet can identify at a glance most makes of autos on the road, is puzzling, psychologists think it has something to do with "visual perception" ... or something.
