Cleaning Tips Offered For Home And Laundry

Spots may often be cleaned from felt hats by rubbing them with sandpaper. By adding a small amount of starch to the last rinse when washing worn table linens, they will resume their original crispness and firmness of weave. When washing flannels, add a teaspoon of powdered borax to each quart of rinsing water to keep the material soft. When rinsing sweaters, press in a color-dor and they will not stretch. The fireplaces can be easily cleaned by sprinkling salt on the ties, rubbing them with half a raw lemon, and following with a good scrubbing.

Methodist Men Hear District Superintendent

DR. BENJAMIN F. HOLME

Dr. Benjamin F. Holme, District Superintendent of the Detroit District of the Methodist Church, was the speaker at the monthly meeting of the Methodist Men's Club of the First Methodist Church of Farmington Wednesday, December 15.

Dr. Holme is well known among Michigan Methodists for his achievements as District Superintendent, to which office he came after serving a long pastorate in one of the larger Methodist churches in Detroit.

"Glimpses of Europe" were revealed to the group as Dr. Holme shared the beauty of what he saw through the use of Kodachrome slides taken on a tour recently to European countries by Dr. and Mrs. Holme.

The narration with the pictures was more than the usual stereotyped style of travel-bureau dialogue as Dr. Holme has the faculty of being a keen observer and of being able to interpret the deeper to which the prevailing social, economic and political conditions affected or contributed to the cultural advancement of the people in the countries visited. A dinner served by the Woman's Society of Christian Service followed. As a part of the evening's business agenda was the formation of plans for the organization of a unit within the group for participation in a Friendly Visitation program.

Looking Ahead By DR. GEORGE S. BENSON

(Continued from Page 2A)
ards. The socialist age, if it comes about, will not free the energies of man from physical work, but will compel him to work harder for a lower standard of living; and instead of being liberated for the pursuits of the arts and sciences he will find his life planned, ordered, regulated and controlled to an extent which will kill any flowering of the spirit. What was thought to be a vision turns out to be a nightmare. The slow dawning of these true and vitally important facts, in the mind of Ivor Thomas, Laborite, as he worked to install Socialism in Great Britain, will be detailed in subsequent columns. His awakening may prove to be valuable to America but futile for England. For despite a government which in 1961, Socialism had by then so crippled private initiative, incentive and enterprise it hasn't yet been overturned, and the Labor-Socialist politicians are expected to return to power in the next election.
