Gentlemen:

There is a bill coming up before the Senate called the Fullbright Gas Bill which, in my opinion, is against the best interests of Farmington gas users. It will raise gas rates from \$40 to \$100 per year for each gas user.

I urge that all people write their representatives in the Senate and urge them to vote against this bill when it comes up. Letters should be sent from this district to either Senator Potter or Senator McNamara.

It's the season for eggs - but not necessarily medium sized eggs. Large size eggs have increased in supply during recent weeks, so the difference in cost between large and medium sizes has become less.
