Gas Burns Up All

Garbage And Trash

gas incinerator disposes of everything from

vacuum cleaner sweepings to ham bones and work bench litter. The fine ashiit leaves need

work bench litter. The fine ashirt leaves need only be disposed of once or twice a month and makes a good fertilizer.

There are more than a dozen manufacturers in the field. Basically, incincrators are of two efficient types: (1) Those with a clock control that sets off a high hot flame. (2) Those with a steady pilot flame. Models are available for both inside and outside installation.

Ation.

A gas incinerator costs no more than a link disposer, yet does twice the work...

And they operate for only a few cents a day.

Only GAS does so much, so well . . . the modern fuel for submedic cooking . . . efrigeration . . . waterheeling . . . house-healing . . . oir conditioning . . . clotles-drying . . incineration.

State Downway the economicsocial cores of Socialism and Communism are identical. Both take power from the citizens and concernate it in government. Thus it is sound strategy for the Communists to jwork for Socialism first. They are of the brotherhood of Socialism, and with power in the hands of a few they can more easily take over
