W. L. COGSWILL
GR. 4-4308

The Board of Directors of the Normandy Hills Association held its monthly meeting last Thursday evening at the home of Mr. and Mrs. B. E. McCane on Britany Drive. Refreshments were served following the meeting.

Halloween parties held for the children of Normandy Hills last Wednesday evening were termed highly successful.

The youngest set met at Habicht's for games, prizes and ice cream. The older children participated in a wienner roast and bonfire at the Cogswills.

Mr. and Mrs. John Nyland, Mr. and Mrs. Jack Tucker, Mr. and Mrs. Stanley Thorpe, Mrs. George Spaulding and Mr. and Mrs. B. E. McCane all helped to make the parties a success.

Mr. and Mrs. Charles Brown of Farmington Road have just returned from a six-weeks' trip to Europe. They sailed from Los Angeles with friends from the M/S Moldaner, a Norwegian freighter, through the Panama Canal to Le Havre, France. In Europe they visited France, Belgium, Holland, Germany and Italy. They flew home from Rome.

Mr. and Mrs. Walter DeGree drove to Wheeling, West Virginia, two weeks ago. Mr. DeGree returned the same weekend, while Mrs. DeGree remained for a visit. Her sister arrived from Cleveland and the two of them, along with their mother, took a trip to Virginia. Mrs. DeGree's sister drove her to Cleveland, where she spent a day before returning home.

Mr. and Mrs. Richard Habicht attended a dinner dance at the Western Golf and Country Club last Saturday evening. The party was given by the American Blower Management Club.

Mrs. Donald Heinonen of Berntine Drive entertained at a luncheon last Thursday. Her guests included Mrs. Heinonen, Sr., and Mrs. Daive, of Detroit; Mrs. Dailey of Farmington, and Mrs. Ken Heinonen and her two sons of Ayer, Massachusetts.

TIRED OF WHITE?

Many a housewife, tired of the white, sterile look of the modern kitchen with its many porcelain appliances, has found relief and enjoyment by redecorating her kitchen with wood. Wall paneling, cabinets to conceal most appliances and the rest of the convenient built-ins can be made of Douglas fir or west coast hemlock, to give the kitchen a completely new look.

BLACKTOPPING of the city-owned parking lot south of Grand River and west of the Precise Tool Company last week came as a pleasant sight to frequent users of the lot. During wet seasons, in past years, it had been almost impossible to park in the lot, which became a sea of mud without any means of drainage. It is anticipated that meters will be installed in the near future with hourly as well as full-day parking facilities to be set up. The lot will park approximately 75 cars.

More and more home magazines are showing rooms decorated with smaller rugs to allow more of the rich, mellow appearances of the wood floors to set off the color and texture of the rug. "Why cover this beautiful floor," one western housewife asked, "I like the warm, neutral colors of my floor and would prefer to let the rug be framed with this lovely flooring."

Who says dream cars never come true?

Dynamite from Detroit

Coming! America's first production dream car—
it will influence the shape of cars for years to come.

The old Detroit rule was to introduce new features gradually, to make little changes each year. Sometimes a new grille, an engine improvement, or new colors and trim.

We broke that rule. In fact, we broke all the rules. This is dynamite!

For you are not the only one who has dreamed of a totally modern car, a car that has everything you find at automobile shows, in illustrations, and in custom-built experimental cars.

Detroit has had that dream, too. And that's why the 1957 Mercury is the car that has honestly excited the most car-jaded, the most sophisticated of Detroit's automotive experts.

When you see the new 1957 Mercury, you'll see America's first full-production dream car—a car that

will influence the shape of cars for years to come.

You'll see a dream car you can own and drive—a car that has far more than startling years-ahead beauty.

THE BIG M for '57 boasts dream-car features never before found outside a designer's dreambook: a Key-board Control that makes ordinary push-button driving old-fashioned; an exclusive Floating Ride with a revolutionary new cushioning action you have to feel to believe. There are Mercury "firsts" everywhere you look. A Power-Booster Engine Fan in the Montclair series that saves horsepower other cars waste. And many more Mercury exclusives.

You'll see THE BIG M—the new Mercury for 1957—soon. You'll see it. You'll drive it. The first dream car that can be yours. The dynamite is on its way from Detroit to your dealer's—now!
