

Turkeys are what dogs try to get without ending up with, and what playwrights end up with without trying to get.

Warner Farms Residents To Meet November 28

The Farmington Library Commission will be represented by its members at the regular meeting of the Warner Farms Improvement Association to be held at the Senior High School auditorium on Wednesday, November 28, at 8 p.m.

The nominating committee for the Warner Farms Association will present a full slate of officers for the ensuing year. Other matters of interest including the coming dance at Glen Oaks Country Club and a snow removal program proposed will be presented.

If any man seeks for greatness, let him forget greatness and ask for truth, and he will find both. —Horace Mann.

FIRST BUCK to be brought into the Conroy Market Locker for storage was bagged by William Davis, an employee at the Lewis' Inn in Farmington, around 8:30 a.m. on the opening day of the season last Thursday. The ten point buck weighing 162 pounds was knocked down in the Brighton hunting area.

A CHANGE OF THOUGHT

Half a century ago most people believed that nothing could be done about tuberculosis. The first Christmas Seal Sale in 1907 began to change this thought. Today, deaths have been greatly reduced, though the real preventive of the disease is still to be found. Join the search. Buy Christmas Seals.

West Farmington

Mrs. I. Knapp — MA. 6-3833

Nov. 15

The November meeting of the West Farmington Farm Bureau will be held on Tuesday evening, November 20. Mr. and Mrs. Grant Howard of Halsted Road will serve as hosts and Mr. and Mrs. Floyd Howard as co-hosts.

Discussion topic will be "The Growing Job of Keeping Rural Representation in Our Michigan Legislature."

Mr. and Mrs. Richard Heliker are the proud parents of a baby girl born on November 8 at the Pontiac Osteopathic Hospital. Named Charlotte Gay, the baby weighed 6 pounds, 9 ounces at birth.

Martin Westlake, who is home from the navy on leave, has been spending the past week with relatives and friends here.

Thirteen were in attendance at a meeting of the Walled Lake W.C. T.U. on Monday evening at the home of Mrs. Charles Heliker. Mrs. Clara Green conducted the business meeting and Miss Florence See gave the devotion. Mrs. Sarah Murray gave a reading on "The Path of Peace" and Mrs. Floyd Howard a book report. A chapter in the study book was read by Miss Doris Green. Coffee and cake were served at the close of the meeting.

Light-weight, portable oil-well drilling rigs are efficient that they can drill through 7,000 feet of rock in less than two weeks. Such a drill usually costs about \$250,000 to build and \$1,200 a day to operate.

A thief broke into a shoe store in Milwaukee, Wis., and stole two shoes—one brown, one black—and both for the same foot. One burglary the local police got a boot out of.

Looking Ahead

By DR. GEORGE S. BENSON

(Continued from Page 2B)

with pay for six hours. When you reduce the day from eight to six hours without wage reduction means a 25 per cent increase in at least in production costs. The shorter day has been discussed with the operators in past years. They claimed that they are getting 6.5 hours of productive time now as a national average, because of travel time and paid lunch periods. The costs must be considered from the competitive angle. There is competition with oil, gas, and water power, and atomic energy in the future.

"These," said the labor leader with firmness, "are the factors of life we have to consider. If you want to stop eating so much and loaf more, we can get you the six hour day."

New, Wholesome Attitude

This is an attitude quite different to the one presented by Mr. Lewis just 10 years ago. It is an attitude accepting the fact that the workers welfare is tied up with the success of his industry, with production and productivity. The new attitude has undoubtedly been influenced by the fact that Mr. Lewis in recent years has become the head of a vast UMW enterprise with many investments — and with many of the problems of the industrial executive. Among the enterprises watched over by Mr. Lewis are a newly organized trans-Atlantic shipping company, one of the largest banks in Washington (controlled by the UMW), a \$4 million investment in public utilities, and so forth. His present attitude is perfectly sound — with regard both to employer and employee.

John Lewis also feels that bigness in American industry is not necessarily bad. "Great consolidations of modern capital are taking place in the industry," he noted, "and they are highly beneficial, and in the modern sense are more efficient — better for the men who work in the mines."

One-third of the nation—55,000,000 Americans—are believed to be infected with the germs that cause tuberculosis. One per cent of these—2,700,000 Americans will develop TB sometime during their lives.

Tip Given For Using Left-Over Potatoes

Left-over mashed potatoes need not be thrown away. A potato-chess surprise is suggested by Mary A. Hixon, home demonstrator agent, using left-over or freshly mashed potatoes.

Add a little finely chopped onion, a well beaten egg and salt to about three cups of mashed potatoes.

Mix together thoroughly and form into six patties with a depression or cup in each one. Fill with shredded cheese, cover with a slice of tomato and top with bread crumbs mixed with butter. Place on a greased baking pan in a moderate oven for 30 minutes.

ONE TIME ONLY!

Big, wide, bulky cars like this are typical of American design. But, to get room inside, they are too big outside for today's traffic, too wasteful of gasoline.

Small, light cars like this are typical of European design. They are economical and easy to handle in traffic, but they don't have the room most American families want.

Only '57 Rambler Gives You Both:

- ① Big Car Room and Comfort
- ② Compact Car Economy and Handling Ease

SEE the car of new dimensions! Single Unit Construction gives room of far costlier cars with economy and handling ease of compact cars.

• Room for six 6-footers. Smoothest ride with Deep Coil Springs on all 4 wheels. Airliner Reclining Seats, Twin

Travel Beds, lowest-cost Air Conditioning.

• America's Lowest Prices! Highest resale value (by Official Used Car Guide). Smartest, most distinctive style.

• 32.09 miles per gallon, coast-to-coast record of Rambler, 6 with over-drive. All-new V-8, too!
