"IT AIN'T NO USE PUTTING UP YOUR UMBRELLA TILL IT RAINS"

Some people read about the symptoms of a disease and then imagine they suffer from it. They often worry themselves sick — usually needlessly.

Never believe you have anything wrong unless your physician confirms it by his skilled diagnosis. If you have any pain or discomfort that persists, consult your physician instead of worrying about it. There are few diseases now that cannot be relieved if the diagnosis is made early.
