Area Aid Being Sought To Finance South Oakland Child Guidance Clinic

The South Oakland Child Guidance Clinic steering committee has formally requested 17 school districts and 18 municipal and township governmental units for financial assistance in establishing a branch Child Guidance Clinic in Southern Oakland County. It was revealed this week.

Requests for assistance have been made to both the Farmington and Clarencville School Districts and the Farmington Township and City of Farmington officials indicated that no request had been made to the city for assistance in this proposed project.

Representatives from most of these South Oakland communities have been meeting since the last of June on this project. The need for the clinic has been supported by all segments of the community and backed by the Oakland Child Guidance Clinic Board.

Miss Madeline Half, director of the Oakland Child states, "Over half of the children on our waiting list and those being seen currently in the clinic are from the 14 Mile Road. We have been planning for such a branch clinic for some time and with the proposed support coming through various sources we are able to give more service to this area by July, 1957. The SOC branch will expand existing services of the parent Pon-tiac clinic and the Birmingham Branch."

The steering committee has proposed a two year request based on 4c per \$1,000 state equalized valuation for the first year and 3c per \$1,000 the second year from each school district. This method was considered to be most equitable.

Based on a State equalized valuation of \$49,942,903 for 1956 the Farmington School District is being asked to contribute \$1,997.88 for the '57-'58 year and \$1,498.26 for the '58-'59 year. The Clarencville School District is being asked to contribute \$449.44 for the '57-'58 year and \$337.08 for the '58-'59 year.

The Township is being asked to contribute a half-cent per \$1,000 equalized assessed valuation. Based on the 1954 State equalized valuation of Farmington Township which was \$39,089,864, the amount being asked of the township is \$195.45 in both the '57-'58 and '58-'59 years.

Abraham Brickner, chairman of the Steering Committee, 21970 Marlowe O.P., indicated that service clubs, interested citizens and community groups are also being contacted in regard to assisting in this project. Brickner indicated that a representative sub-committee is working on the determination of a location of the clinic.

The proposed budget for the clinic's first year's operation is \$31,230. It was pointed out that the second year will be less, \$23,300, due to certain non-recurring items such as office equipment, etc.

This method of financing the clinic has been worked out in many areas of Michigan most successfully. The pattern in Michigan has been that Michigan Department of Mental Health, along with the local county board of supervisors and other local school districts, share in financing of Child Guidance Clinics. Local Community Chests are very often contributors to this project as well.

In speaking of what the branch clinic would do Miss Half stated, "More services would be provided to a natural community area such as exists in South Oakland County. Referrals from school visiting teachers, private physician and other sources would be handled more easily and without undue travel. Both the child and their parents would be benefiting from this development. This in turn of course makes our community a healthier place in which to live."

Michigan Mirror

(Continued from Page 2C)

emerging from the political charges that industry is leaving Michigan because of high taxes and labor costs.

In a survey conducted by the Michigan chapter of the Society of Industrial Realtors, Carl Rosman, president of the group, said that three industrial firms have moved into Michigan for every one leaving the state.

The survey indicates that Michigan is continuing to grow in industrial strength and is holding its own against competition from other states. Charges that industry is moving out of the state because of high taxes and labor costs "have either been unfounded or grossly exaggerated," Rosman states.

"Michigan has one of the most outstanding industrial development programs in the nation, and I feel it's important to show every individual that he has a share in it," Rosman concludes.

HERE WE GO AGAIN! With the end of the last election still glowing, both political parties are busy collecting new fuel for the spring elections, April 1. The stakes are high. Posts to be filled include State Highway Commissioner, State Superintendent of Public Instruction, members of the Boards of Regents and Board of Agriculture (governing bodies of the University of Michigan and Michigan State University) and one Supreme Court Justice.

Winners in this election will hold control over state highways, schools and the judicial system. Biggest plum falls to the next Highway Commissioner. Many roads planned for years will soon be opened. With almost unlimited building funds available in the near future, who ever holds the post is certain to reap more glory and fewer tears.

If these jobs are currently held by Republicans with the exception of the Supreme Court post, Charles M. Ziegler is expected to see re-election as highway commissioner. The Democrats will probably oppose him with Carl McMonagle, a former member of Ziegler's staff, now working on highway safety program at Michigan State University.

Clair L. Taylor, currently State Superintendent of Schools, will run again against a capitalist source. Democrats have not named his opponent.

YWCA Coffee Hour Set Dec. 12

Northeast YWCA invites members and friends to their monthly coffee hour Wednesday, December 12 at 10 a.m. at the Branch building, 17288 Redford Avenue.

Mrs. Fred Hubel, 15022 Artesian, will be featured with an exhibit of fancy wrapped Christmas packages. Mrs. Hubel will talk briefly on materials and ways to produce beautiful gift packages. She will also show samples of her work.

Mrs. Norton Elliott, chairman of the Branch membership committee, and Mrs. Allen Fawcett, Sr., will be hostesses for the event. The membership committee sponsors these coffee hours on the second Wednesday morning of each month.

Central PTA Plans Revealed

A meeting of the Central School PTA executive board was held on November 28 at the Central School.

Various committee reports were given and discussed including a report by Ralph Waack who heads a group working on plans for a money raising project. Central PTA delegates to the 27th annual Parent Education Institute at the University of Michigan the early part of November were Mrs. Ethel Hanson, Mrs. Robert Dennis, Mrs. Sangster Warren, Mrs. Robert Watwood, Mrs. Raymond Stevenson, Mrs. Leon Bury and Mrs. George Keller. It was reported.

The December meeting of the Central PTA will be held Monday, December 10, at 8 p.m. at Central School.

Program for the evening will include the showing of films "Child As A Whole" and "Child Rearing Practices" by Dr. Willard Olson of the University of Michigan.

Dr. Olson expresses the importance of providing tasks according to the ability of the child. Problems of child rearing discussed include feeding, obedience, fears, temper tantrums and sleeping.

Receiving Basic Training With 9th Infantry Div.

Pvt. William L. Holmes, son of Mr. and Mrs. Henry L. Holmes, 22500 Springdale Drive, is receiving basic combat training with the 9th Infantry Division at Fort Carson, Colorado.

Holmes entered the Army last October. He is a 1956 graduate of St. Francis Desales High School in Detroit.

It's a Whiz at Everything a car should do

It turns out that the 1957 Buick is far more than just a brand-new automobile.

It turns out that this stunningly low-styled beauty is a wonderful new whiz at everything a car should do.

It turns out that this new '57 Buick is winning the raves with a new kind of going and a new kind of stopping—a new kind of handling and a new kind of road sureness—a new kind of safety and a new kind of comfort.

We'll be specific.

When you press the pedal of a new '57 Buick, the response is literally instant...

Because the high-torque power of a new 364-cubic-inch V8 engine is delivered in the split of a second through a new full-range Variable Pitch Dynaflo™ that's immediate in its oil-smooth action.

Looking Ahead

By DR. GEORGE S. BENSON

(Continued from Page 2C)

"Independence." The risks taken by the Russians were twofold:

"1. The independence movement may take an anti-Communist as well as an anti-Russian turn. This is not the plan. At the moment this appears to have been avoided in Poland but to have developed dramatically in Hungary. This is not a major danger, as the Russian forces are present to assist the 'new' independent Communist Party in the satellite countries to maintain order, on the 'invitation' of the satellite. Experiences in East Germany, Poland and now in Hungarians are proved that such revolts can be quite easily crushed.

Opposition Not Definite

"2. American intervention is a danger considered by the Red masters. Secretary Dulles quickly settled this by stating that we would not intervene if the Russians used military force against Poland as that would lead to World War III and result in the extermination of the Poles. I'm sure the implications of this statement were not lost on other European countries. Logically applied it would seem to wipe out a potentially decisive factor in the defense of any European country.

"The stakes in this Russian game were high," wrote Dr. Schwarz. "They are India, Indonesia, Japan and in Arab countries. The tragic but magnificent fight of the Hungarians and the U. N. action in Egypt may hurt the Reds, but don't let us rejoice too soon. Soviet Communism, on balance, continues toward world domination."

We must never again be fooled by the tactics of this evil force.

Newest Buick Yet

WHEN BETTER AUTOMOBILES ARE BUILT BUICK WILL BUILD THEM

BLACKLOCK BUICK INC.

32411 GRAND RIVER AVENUE GR. 4-1000 FARMINGTON, MICHIGAN

When you brake to a stop, you and the car stay on a level plane . . .

Because an ingenious new ball-joint suspension in every '57 Buick virtually ends the down-in-front dip that cars have on sudden stops.

When you take a turn or swing into an "S" curve, you still hug the road like a streamliner on rails—

Because under you is a massive wide-frame new chassis that "nests" the whole car inches closer to the road with the lowest center of gravity in Buick history—yet with no change in road clearance.

And when you sit in the deep comfort of those soft wide seats, you can drive with the pleasant ease of a clear conscience, without watching the speedometer . . .

Because only in Buick today can you have an ingenious new Safety-Minder* that acts as a warning sentinel for the miles-per-hour you preset for yourself.

There are many other new things that make this gorgeous Buick a car of limitless wonders—from the bigger and more rakish windshield that makes seeing more relieving, to the extra roominess that's so surprising in this beauty with the sports-car lowness.

But there's nothing like a firsthand sampling to know how modern the newest thing on wheels really is. Come in today for your meeting with the newest Buick yet.

*New Advanced Variable Pitch Dynaflo is the only Dynaflo Buick builds today. It is standard on Roadmaster, Super and Century—optional at modest extra cost on the Special. Safety-Minder standard on Roadmaster, optional other Series.
